

# GMO Financial Gate IR Introduction

---

GMO Financial Gate, Inc.  
(Ticker: 4051, TSE-Prime)

**GMO** FINANCIAL GATE

<https://gmo-fg.com/>

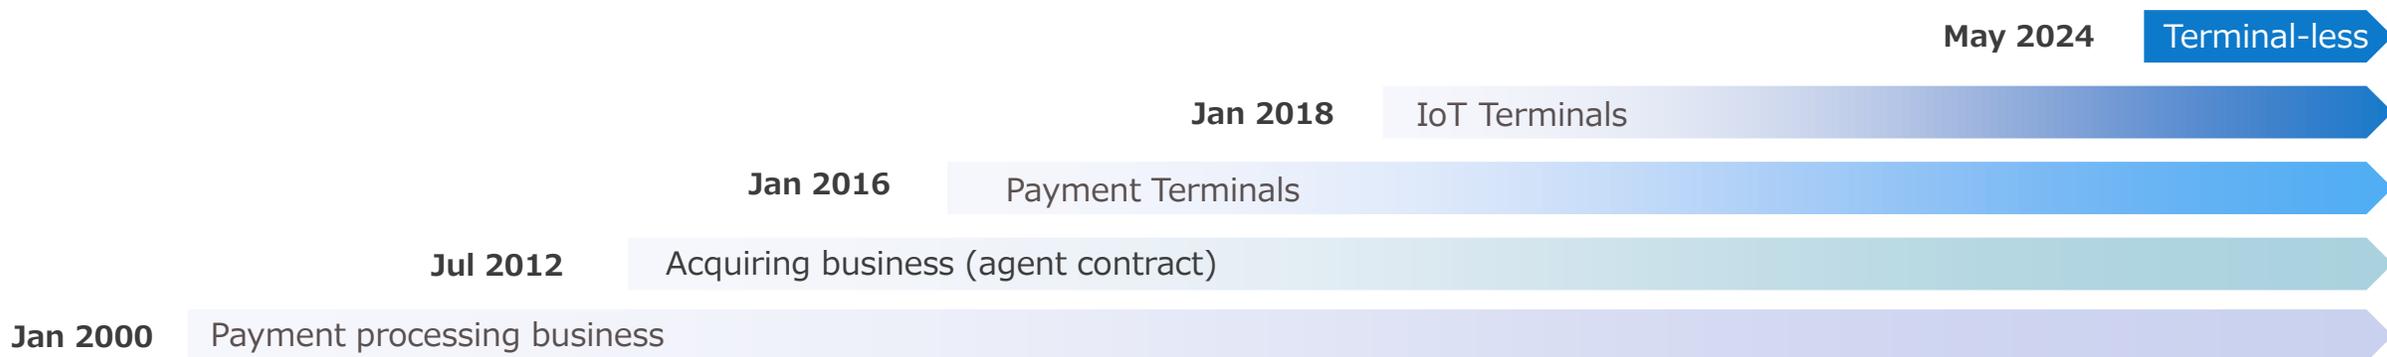

## Revolutionizing in payment changing Society No.1 Cashless platformer

We will create a better society by making the "payment" more convenient and easier for customers in all types of industries and businesses, and by integrating it into their businesses - We support them and aim to be the No. 1 cashless platform provider

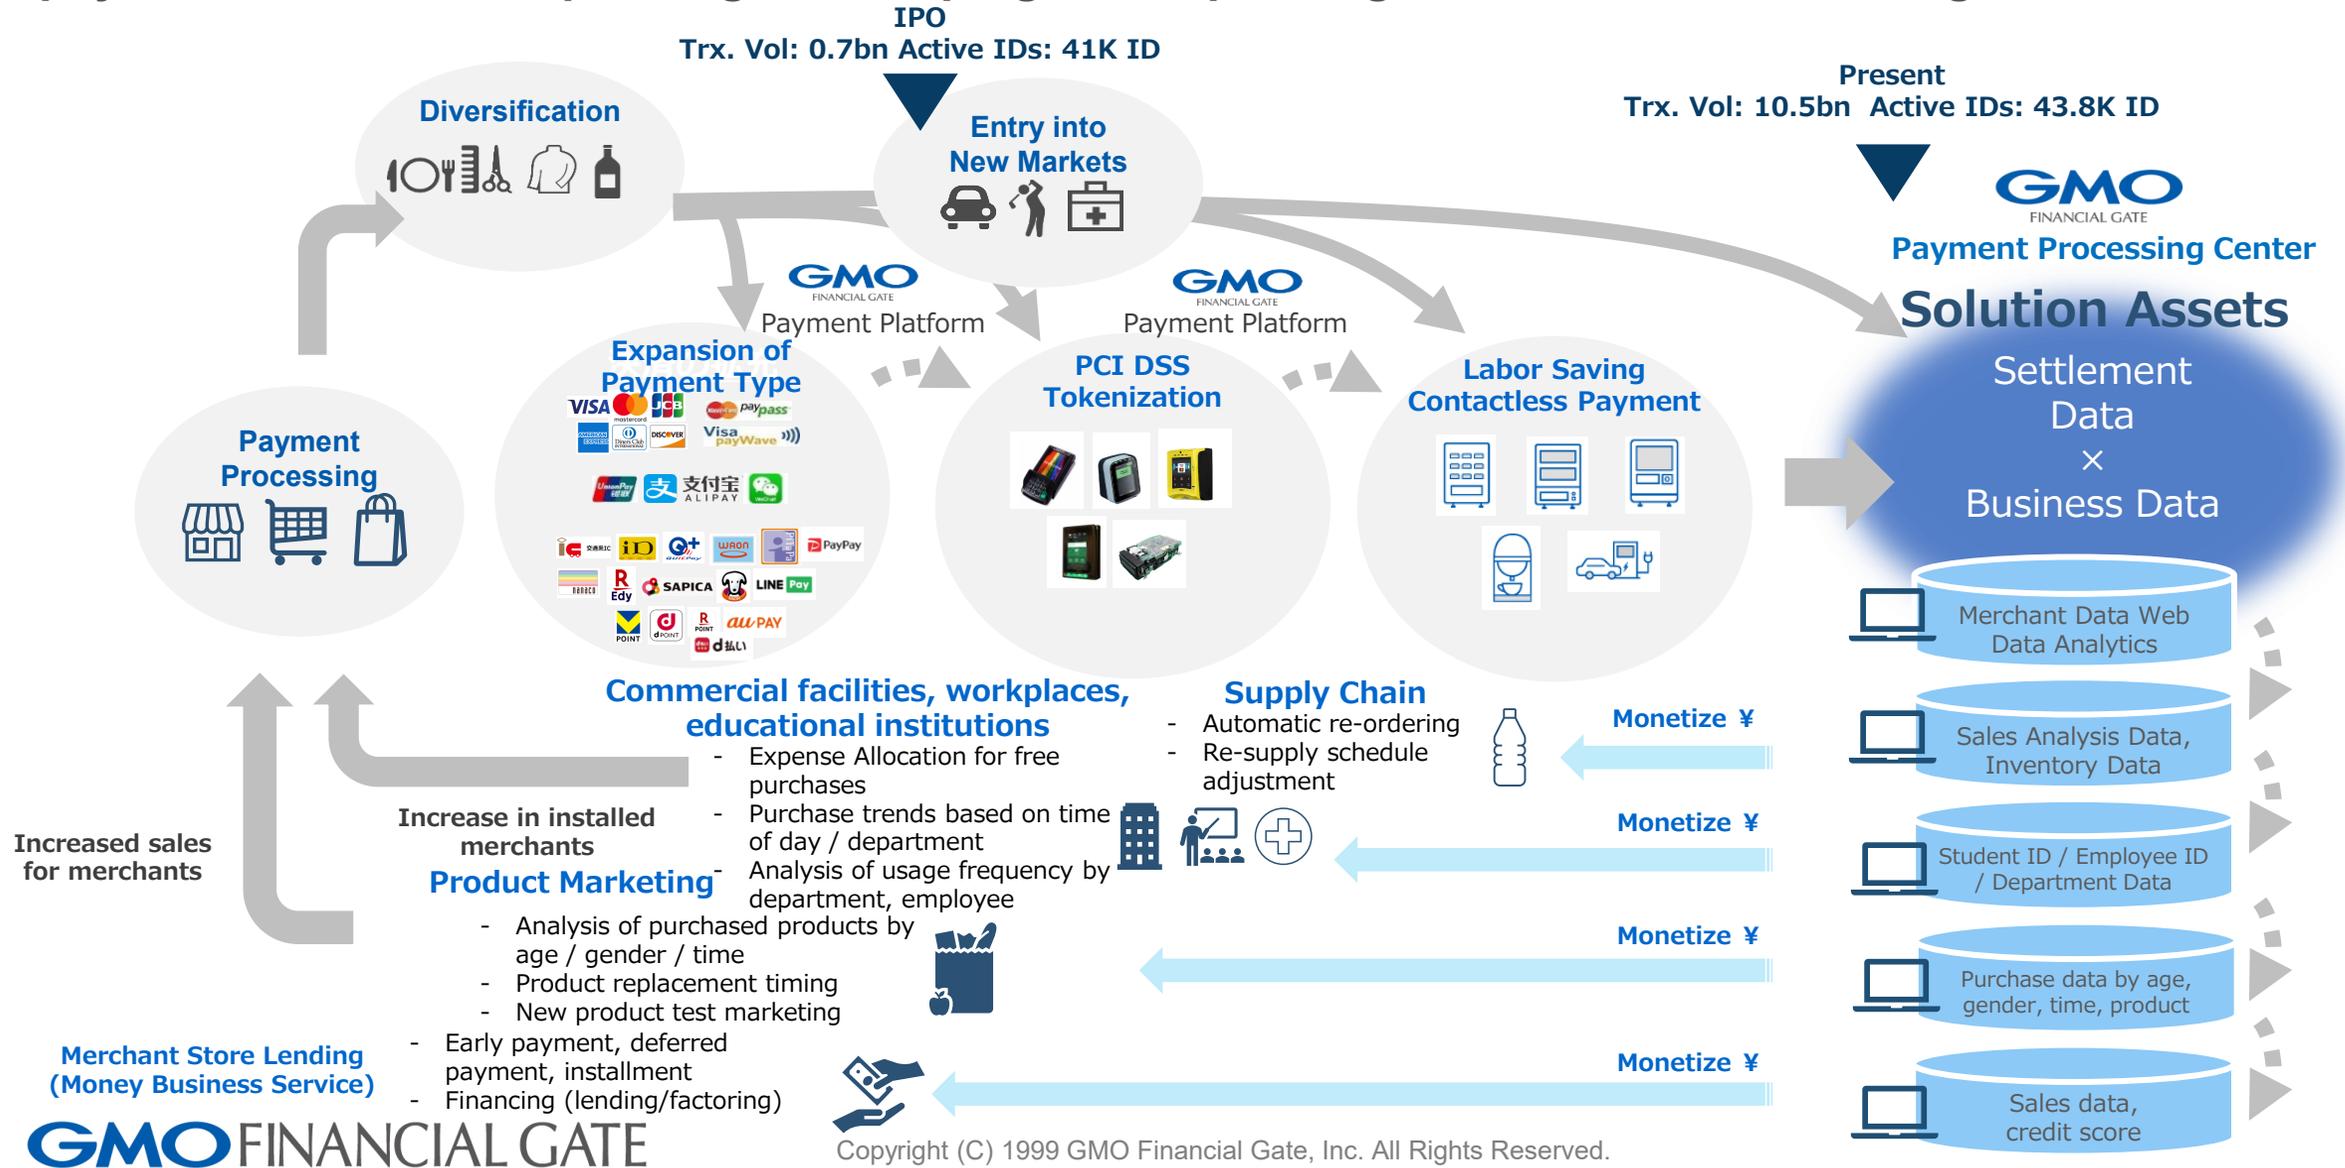

# History

Joined the GMO Internet Group in 2010 and accelerated growth  
IPOed in 2020, listed on the Tokyo Stock Exchange Prime in 2025

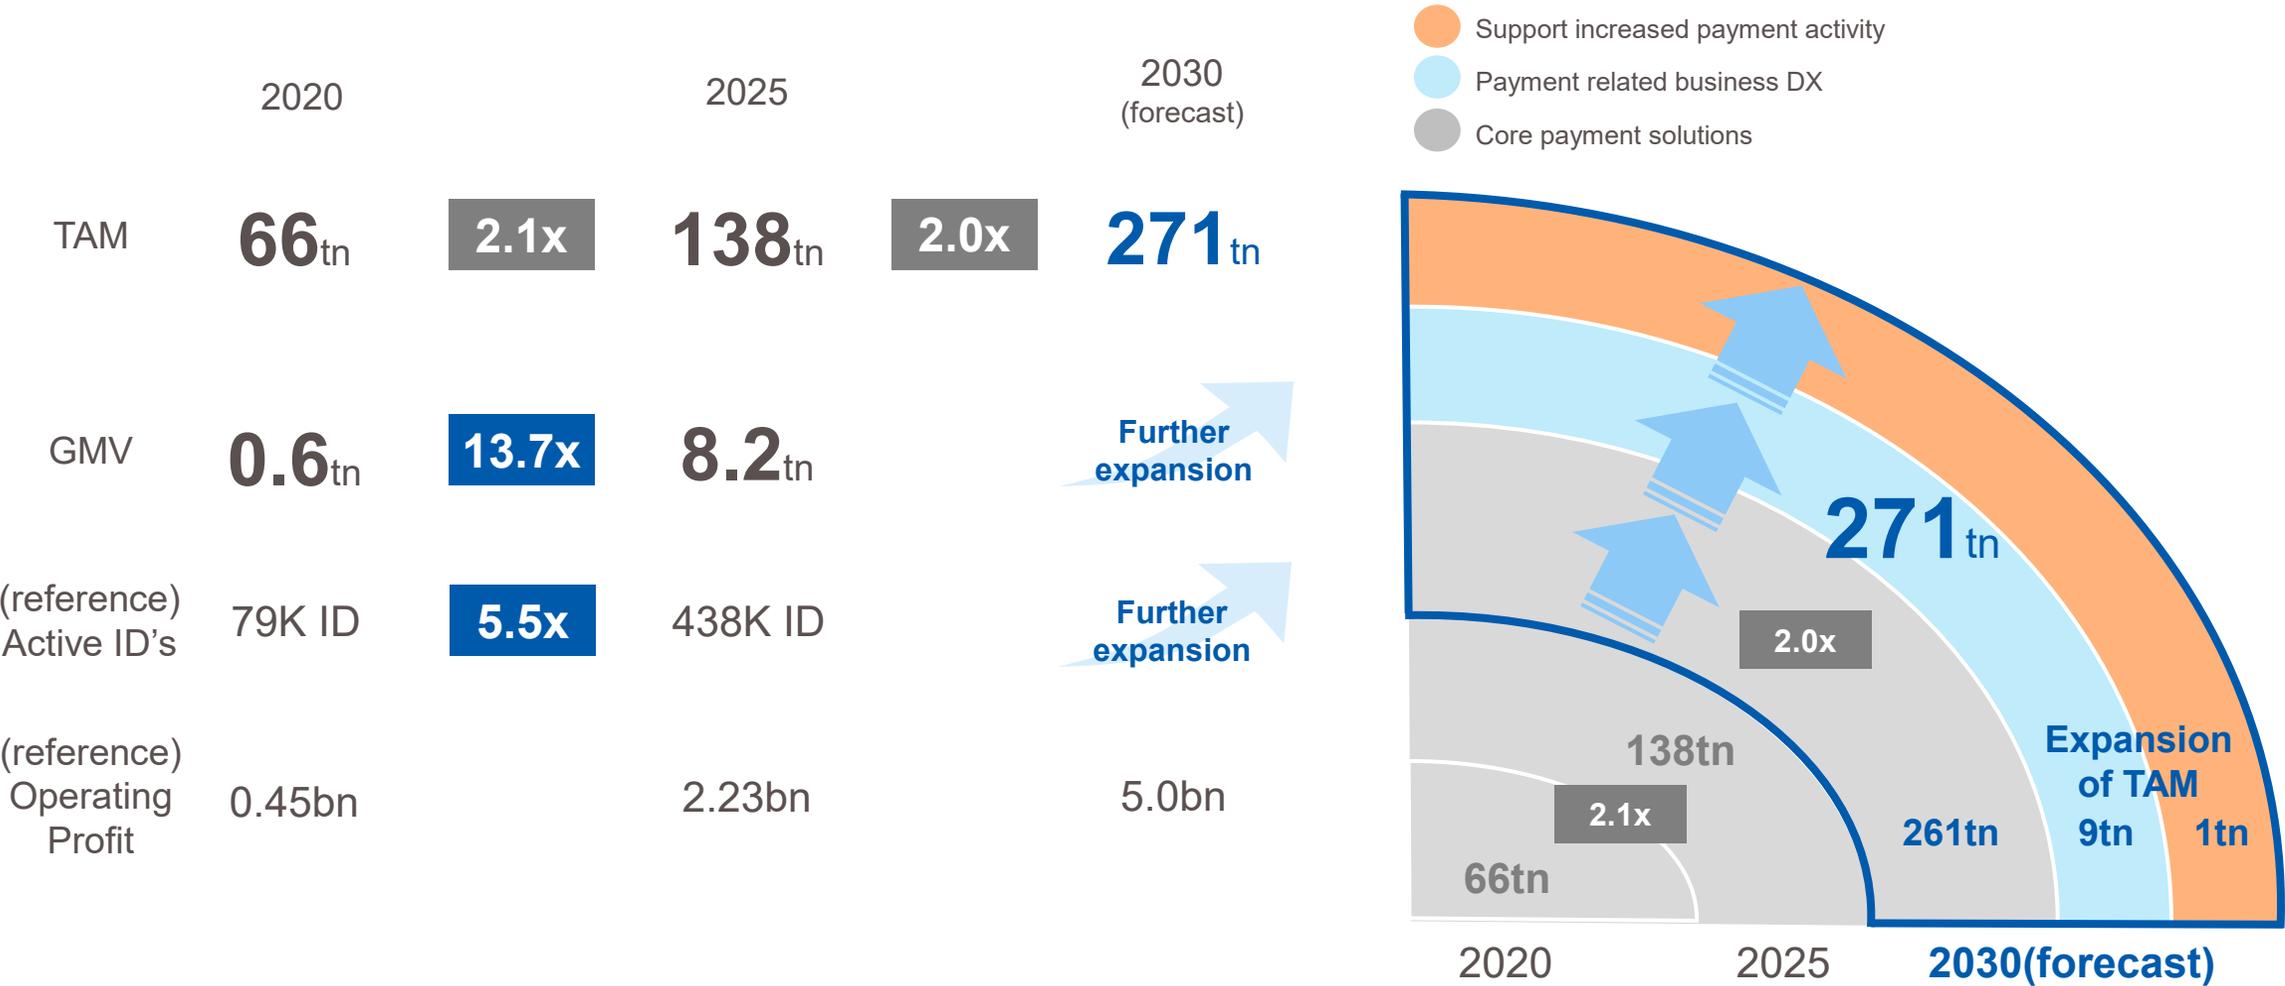

# Cashless Ecosystem Vision (2019)

The cashless ecosystem vision explained at IPO is progressing as originally planned. Active IDs for all payment scenes are expanding - developing and expanding solutions assets with higher added value.

# Expanding TAM for profit growth

After IPO, GMO-FG outgrew the core payment solutions market – will expand TAM to payment related business DX and support increased payment activity

Reference materials: Yano Research Institute's "2024 Edition: Current Situation and Future Forecast of the Domestic Cashless Payment Market," "2024 Edition: Current Situation and Future Forecast of Online Payment Service Providers," "Survey on the Digital Marketing Market (2024)," and Fuji Chimera Research Institute Co., Ltd.'s "2025 Future Outlook for the Digital Transformation Market: Market Edition"

# Profit Roadmap

Promoting mid- to long-term measures to achieve operating profit of 10 billion yen by 2033

## Strategy

Strategy

- 1 Acquire multi-industry/high-growth enterprises by launching next-generation multipayment terminals
- 2 Expand IoT payments by supporting contactless (tap) and unattended payments
- 3 Acquire large scale merchants through expansion of alliances with QR, points, etc.
- 4 Increase added value by strengthening processing center functions

### Cashless 2.0

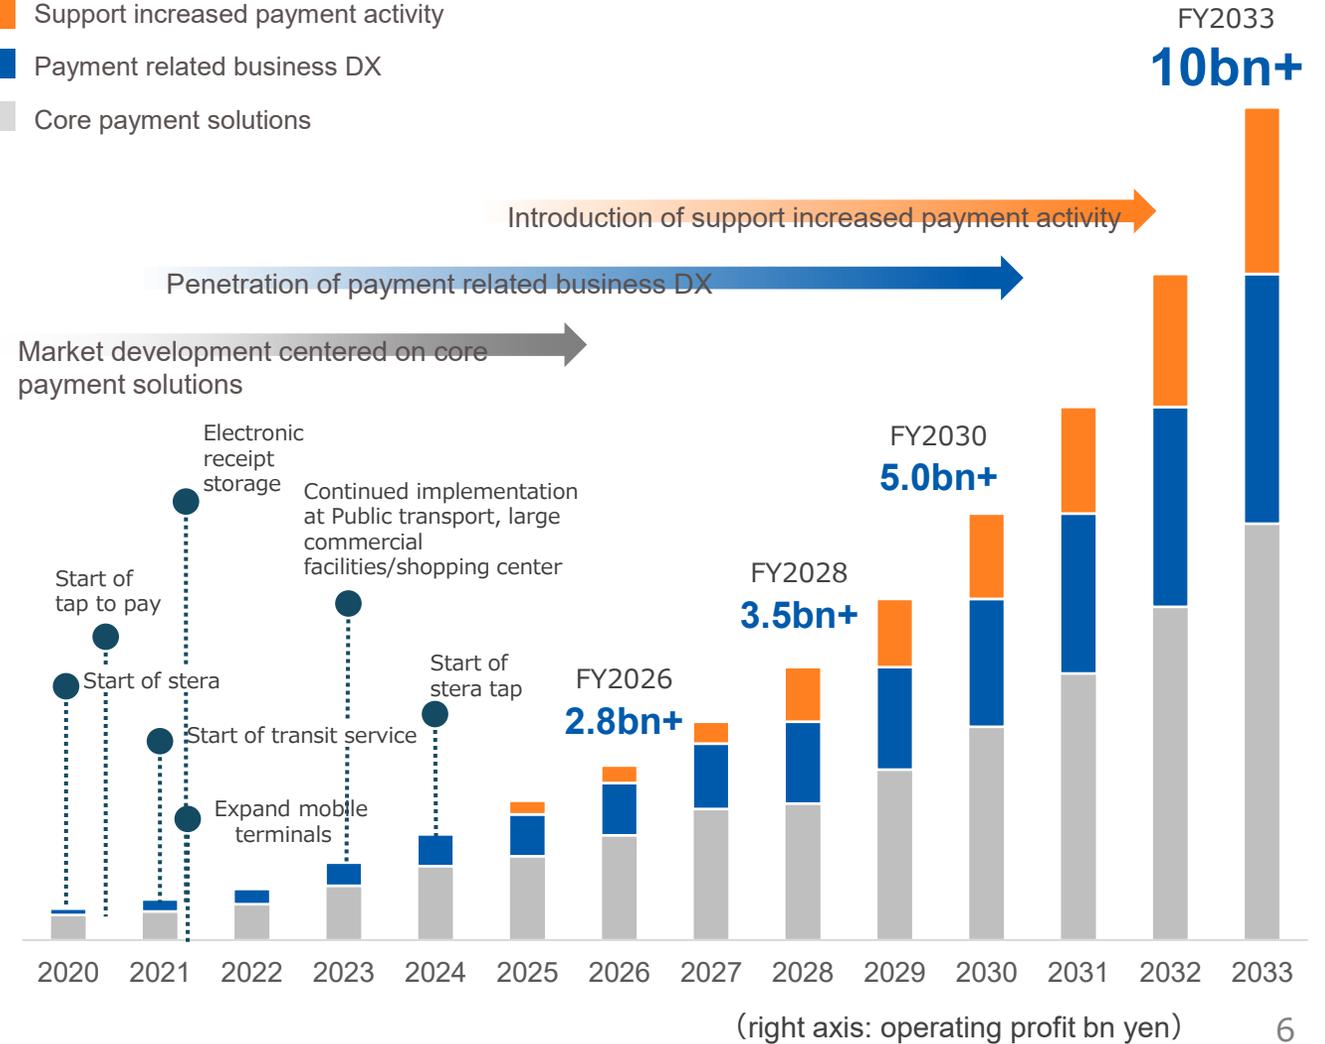

Mid to long term strategy

## Operating Profit Growth Curve

### Solution Assets

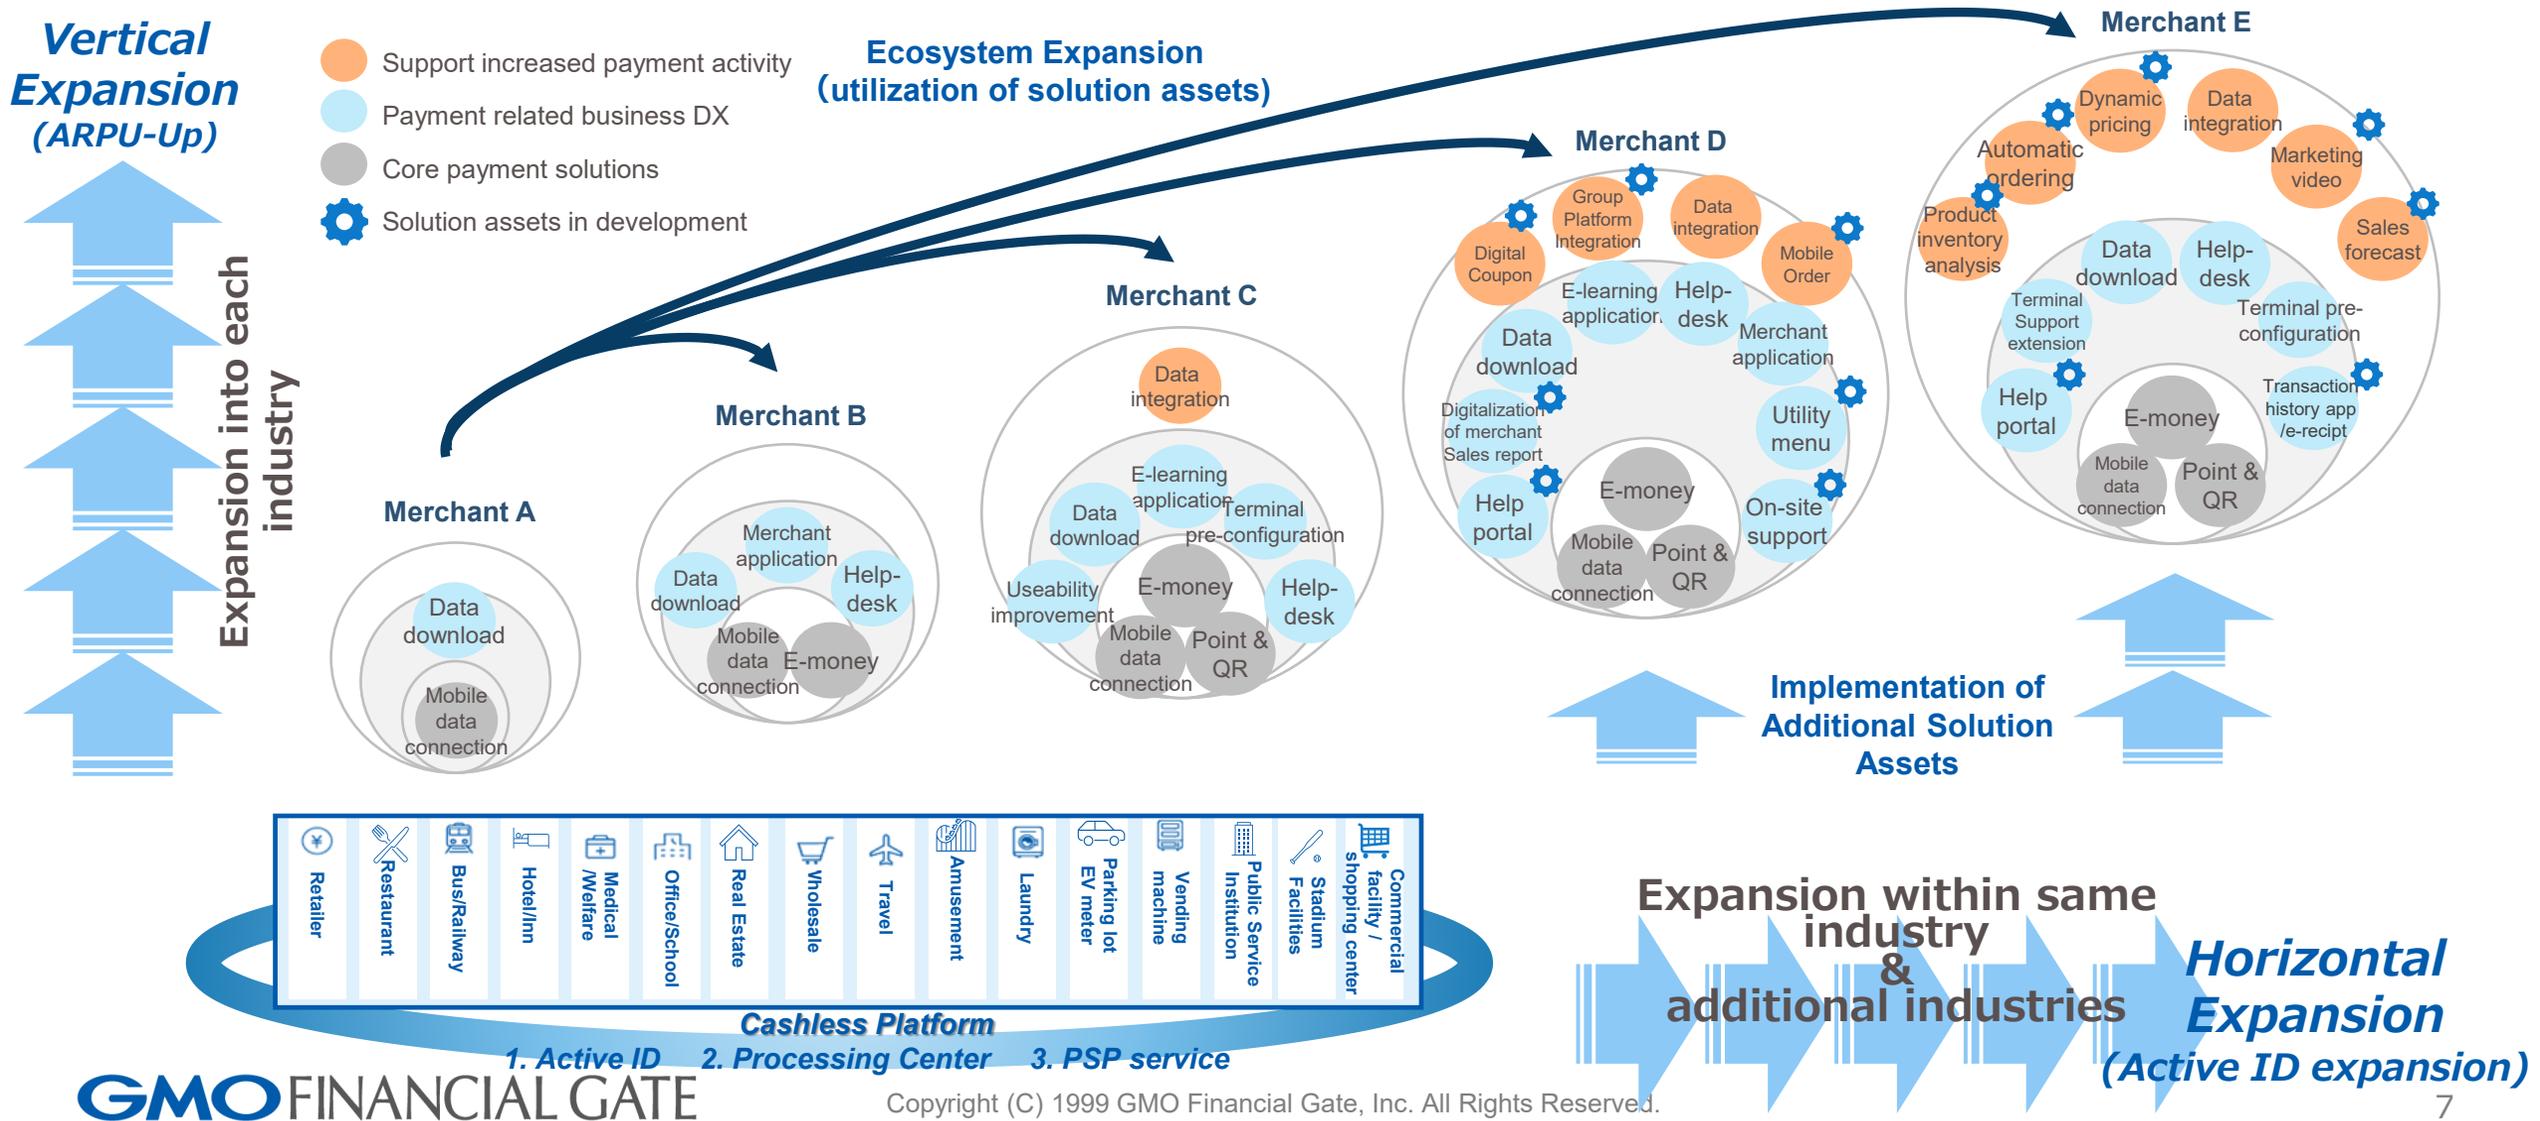

- Support increased payment activity
- Payment related business DX
- Core payment solutions

# Ecosystem Expansion

Horizontal : Core payment X solution assets contributes to YoY increase in active IDs

Vertical : "Payment related business DX" and "support increased payment activity" will increase ARPU

# Profit Growth Cycle Based on Track Record

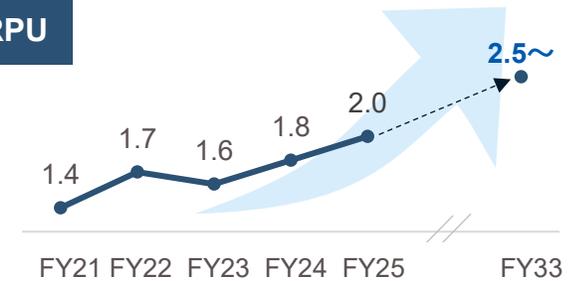

Continue to implement profit growth based on below three KPIs to achieve operating profit target

Achieve  
**1mn Active IDs**  
by FY33

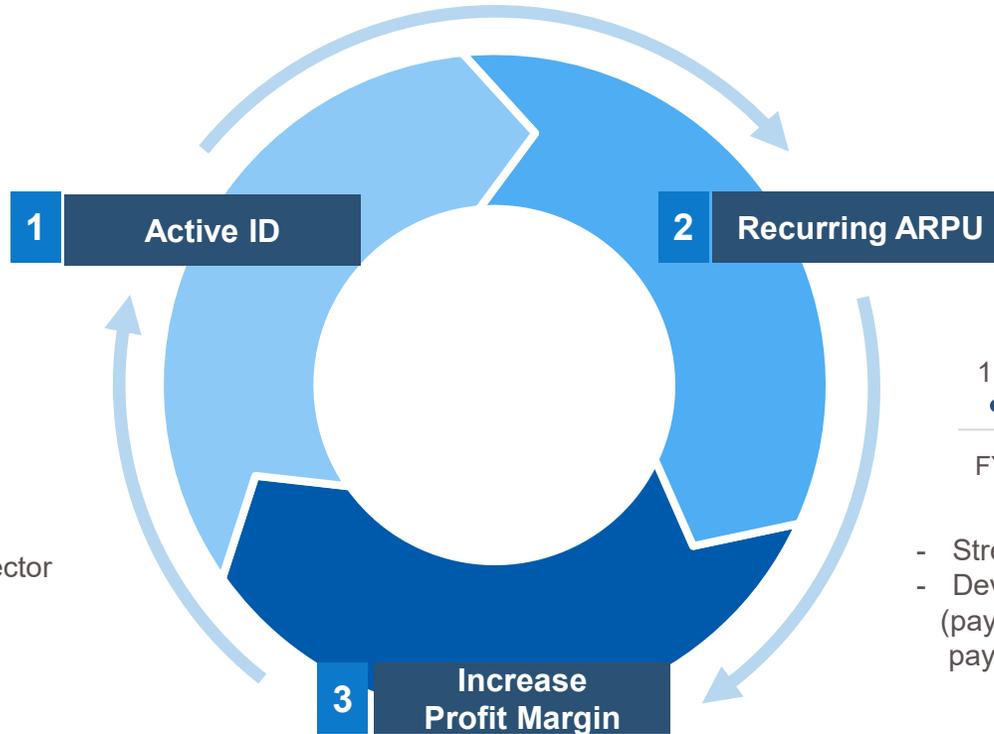

- Continue acquiring new merchants
- Expand alliance with partners based on business sector
- Expand SME base trend

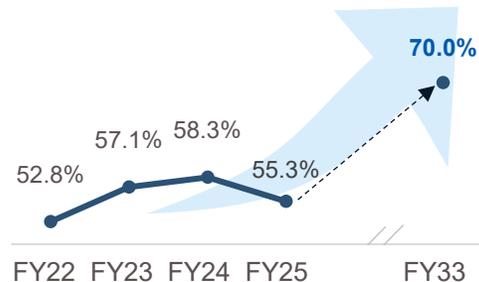

Increase  
**recurring ARPU** to  
**25K JPY**

- Strengthening per account plans for large merchants
- Development into payment-related businesses (payment related business DX, support increased payment activity)

Increase  
**recurring gross profit margin** to **70%+**

- Continue building common assets to increase business leverage using fixed costs
- Utilize AI for automation / greater efficiency in system development
- Manage profitability per ID

# Investment Highlights

Established a strong market position in a highly regulated and competitive industry

Continue focus on increasing the number of active IDs and addressing merchant requirements

1

Acquired  
**0.4mn IDs**\*1 within  
**5 Years of Listing**

- ✓ **Global-standard payment architecture:** Realized through strong partnerships with Visa and Sumitomo Mitsui Card
- ✓ **High entry barrier:** Providing a unique, one-stop service as a credit card payment processing center

2

**0.4mn → 1mn+**  
Active ID's by 2033

- ✓ **New alliance strategy:** Joint initiatives with Visa and Sumitomo Mitsui Card
- ✓ **IoT frontier:** Accelerating strategic expansion into untapped cashless markets

3

**¥20K → ¥25K**  
ARPU Growth Target  
**by 2033**

- ✓ **Planned operation:** Smooth transition from listing to business expansion – working towards data monetization
- ✓ **Ecosystem:** Expanding solution asset offerings tailored to each industry segment
- ✓ **Value proposition:** Driving execution from requirements definition to delivery, with a management-first, needs-driven approach

# Investment Highlights

# Three Biz Models Over a Single, One-Stop Platform

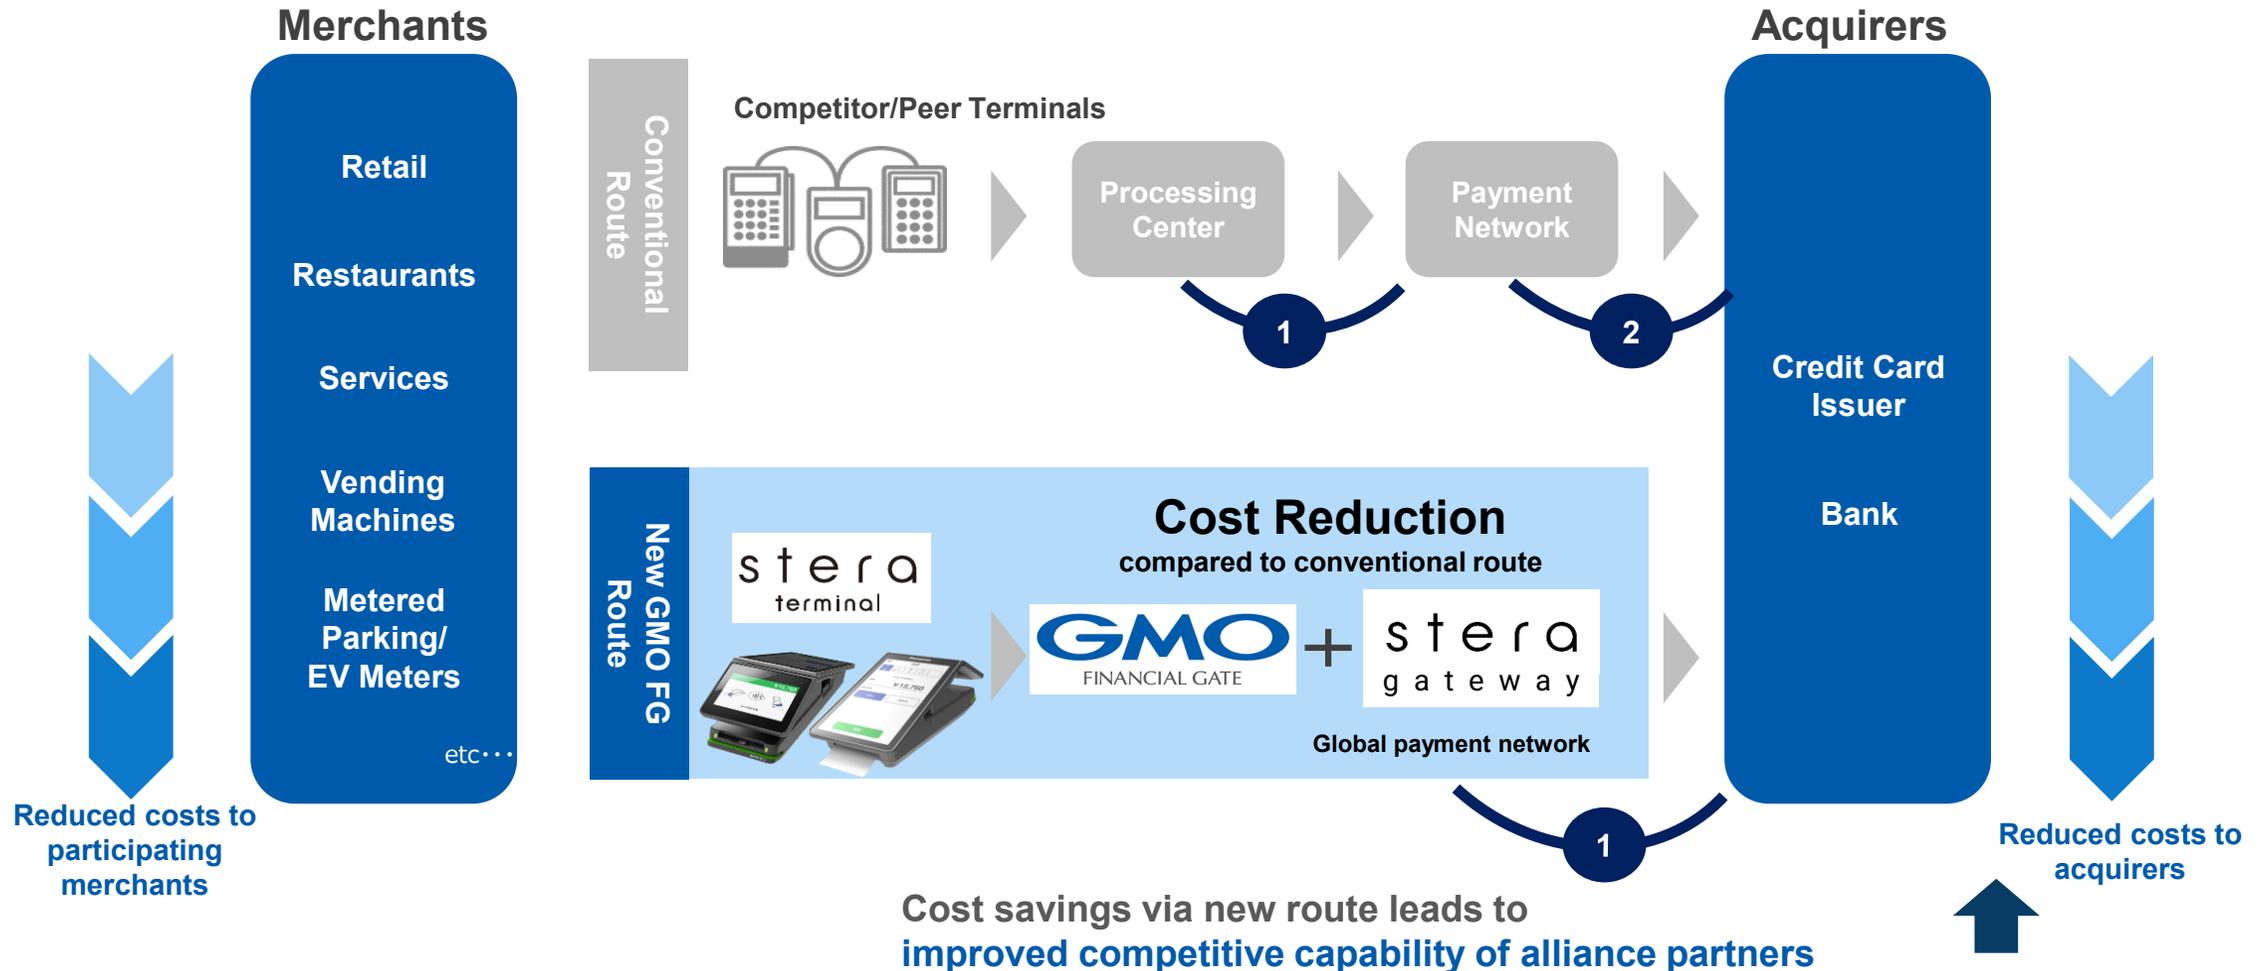

One-stop platform covering all settlement processes between merchants and acquirers

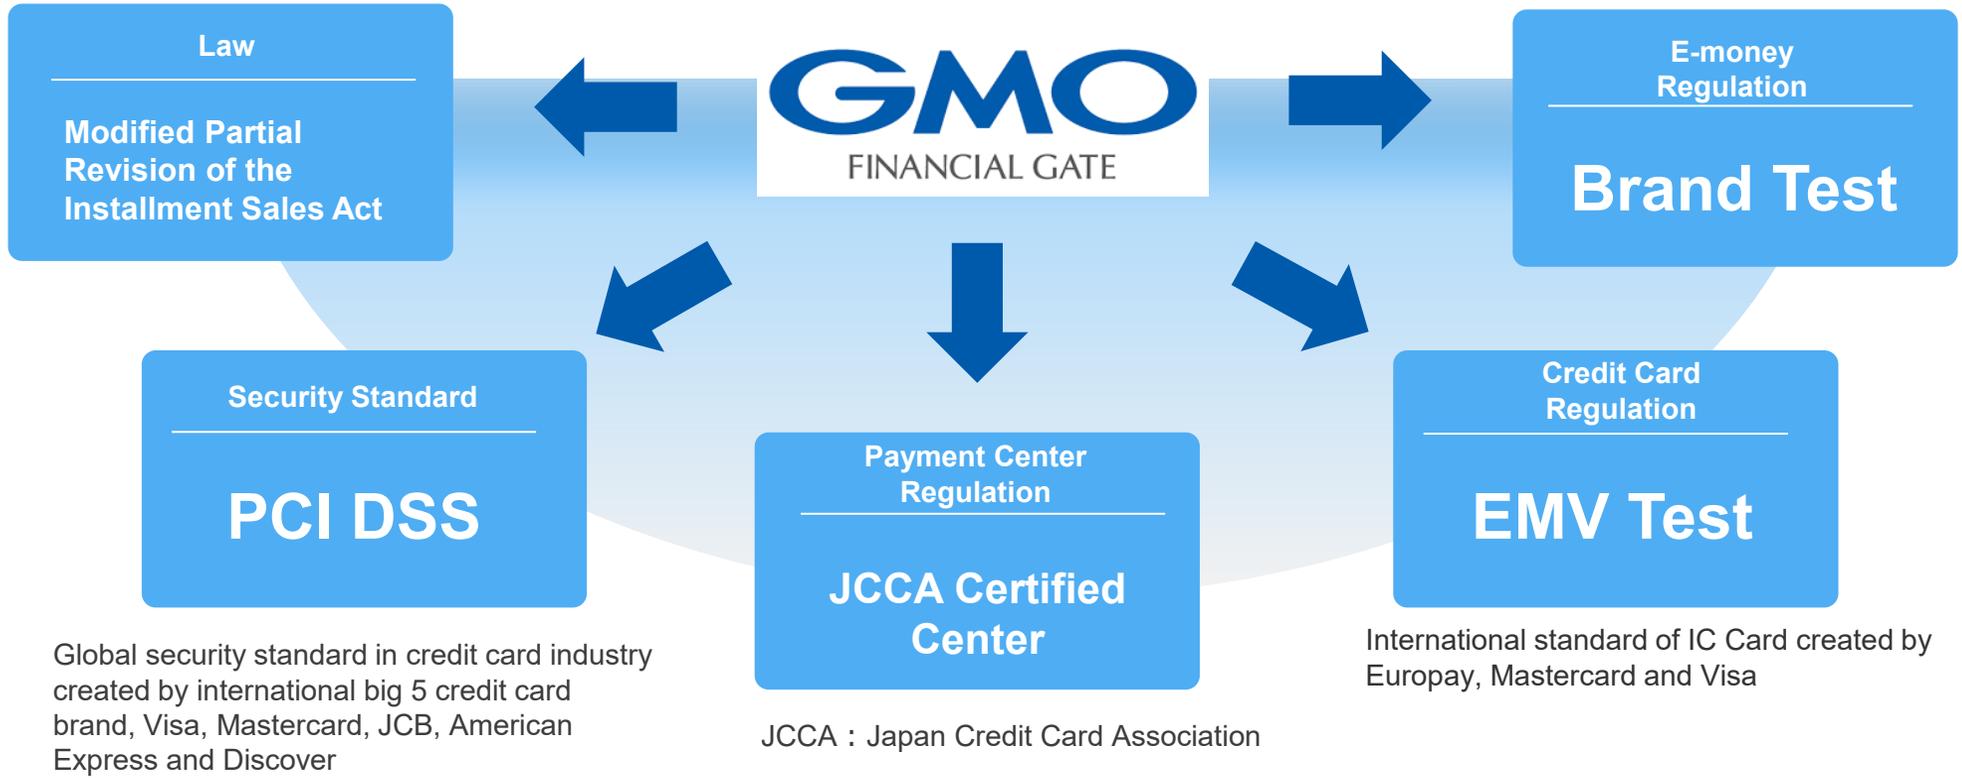

# Strategy to Maximize Transaction Value

Created a new global standard payment route with alliance partners

This route increases GMV, as the route reduces costs to participating merchants and acquirers

Many kinds of regulations exist in the face-to-face payment market depending on the payment method, and the number of regulations are increasing. As payment methods become more diversified, the barriers to entry become more challenging

# Potential for Active ID's

Aim to increase Active ID's to 1.2mn by 2033

Accelerate Active ID acquisition through strategic approach for each category

## Active ID Increase Image

## ID Acquisition Policy

Category	Policy	Max ID Potential
1  Major Corporate Groups	Expand to industry-wide scale by breaking into <b>top-tier commercial facilities and major railway operators</b>	200K
2  IoT	Accelerate adoption in large markets such as <b>coin-operated parking lots, self-checkout stores</b> (supermarkets, drugstores, and fast food)	200K
3  Card Companies	Leverage expertise through partnerships with <b>VISA, Sumitomo Mitsui Card</b> , and others	500K
4  Terminal-less	Efficiently deploy optimized solutions for <b>delivery, at the table ordering</b> , and other <b>on-site needs</b>	300K
5  Mobile POS Vendors	<b>Mid-size:</b> expand through packaged products such as <b>stera pack</b> <b>Small-size:</b> efficient rollout in <b>long-tail markets</b>	400K
		<b>Total 1.6mn</b>

Increase of inbound tourists continue

Service implementation is planned for the Sapporo Municipal Subway

## Implementation at Public Transportation Institutions

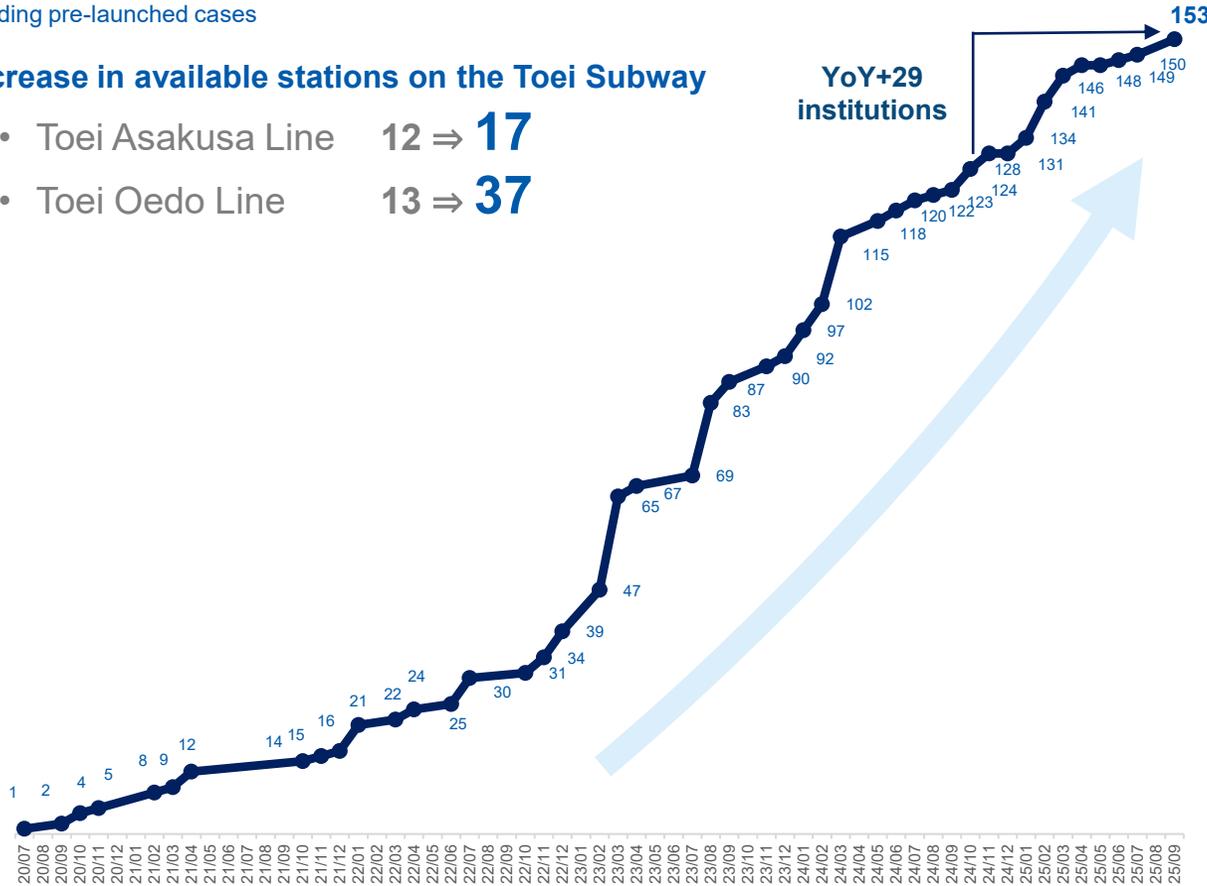

Number of mobility introduction cases in GMO-FG platform

\*including pre-launched cases

### Increase in available stations on the Toei Subway

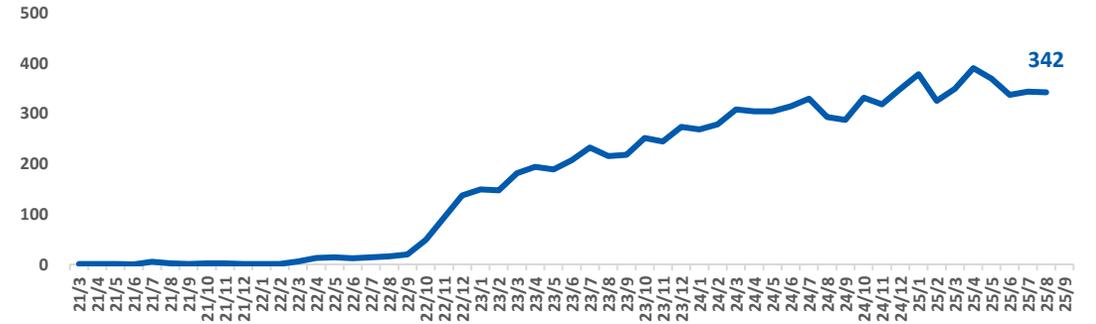

- Toei Asakusa Line 12 ⇒ 17
- Toei Oedo Line 13 ⇒ 37

Sept. 2025 : **153 institutions\***  
(40 prefectures)

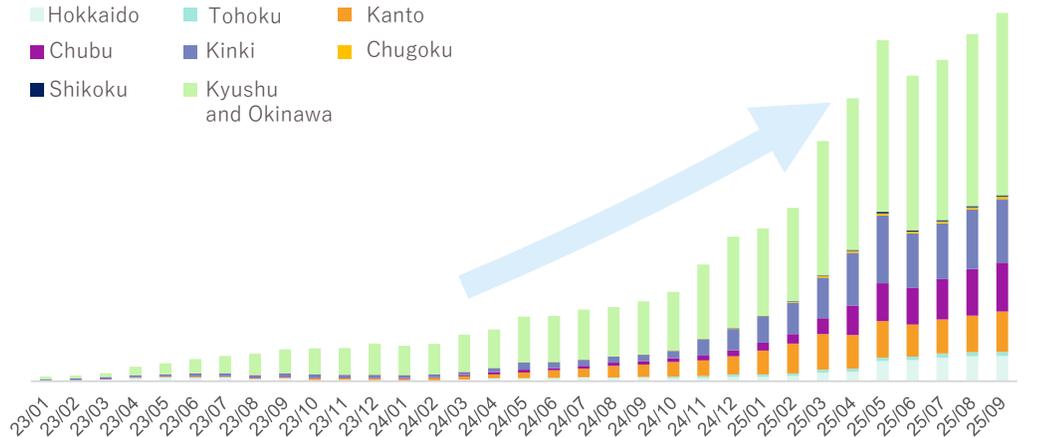

## Number of Tourists and Mobility Settlements

(ten thousand people)

# Ecosystem Expansion

Released restaurant operation support service – will continue to strengthen solutions  
 Continue to expand ecosystem of solutions for large merchants

- Support increased payment activity
- Payment related business DX
- Core payment solutions

Vertical Expansion (ARPU-Up)

FY2025

FY2026

FY2027

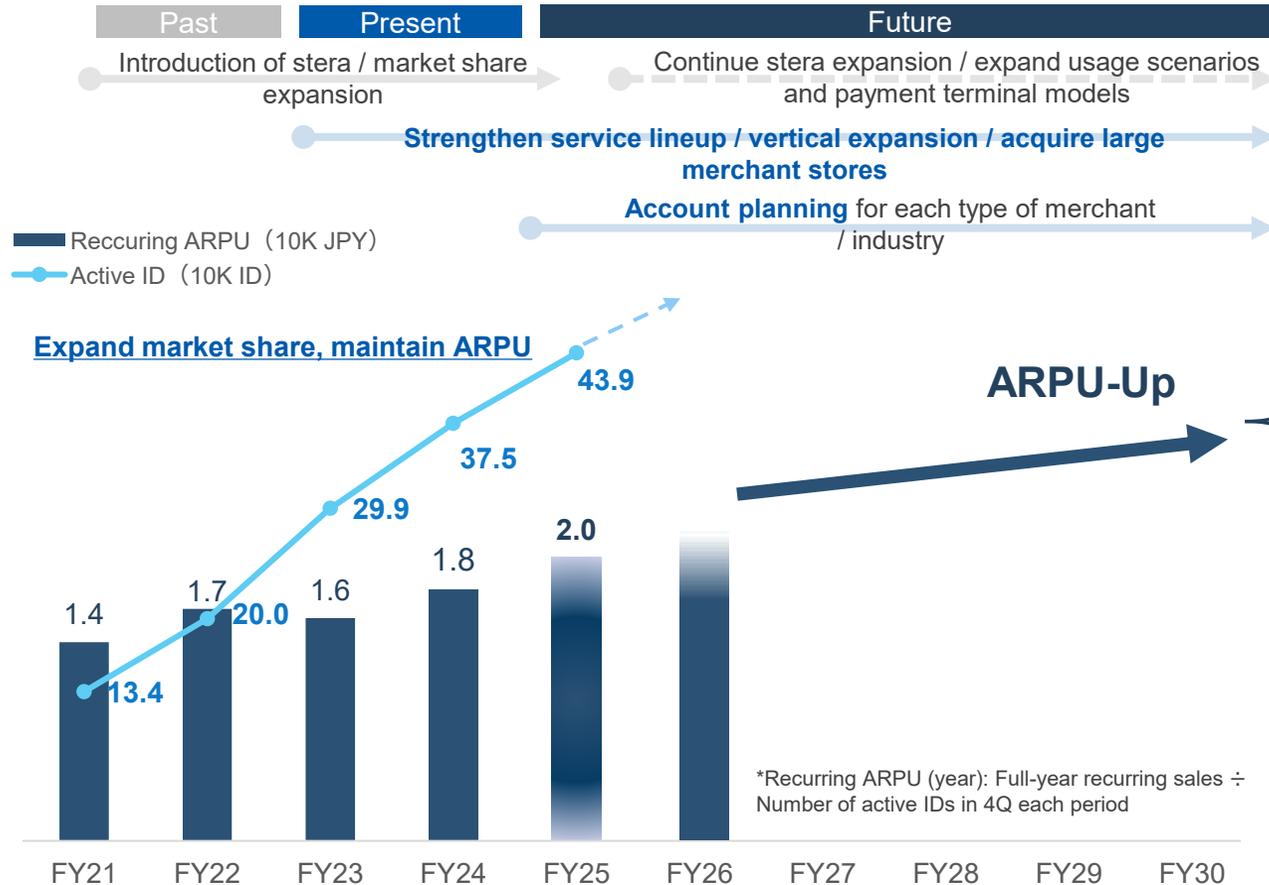

Timeframe

Continue to increase in ARR for FY25. Will continue Vertical X Horizontal strategy for large corporate groups - will continue increasing ARPU beyond FY26

$$\text{ARR} = \text{Active IDs} \times \text{ARPU}$$

\*ARR : Annual Recurring Revenue (yearly recurring model revenue)

## Recurring ARPU per year trend\*

## ARPU improvement measures

**Large Corporate Groups**

**ARPU-Up** Recurring ARPU: Approx. **20-30K JPY**

- Aim to further increase active ID and improve ARPU with Horizontal × Vertical

**Approx. 2x Recurring APRU**

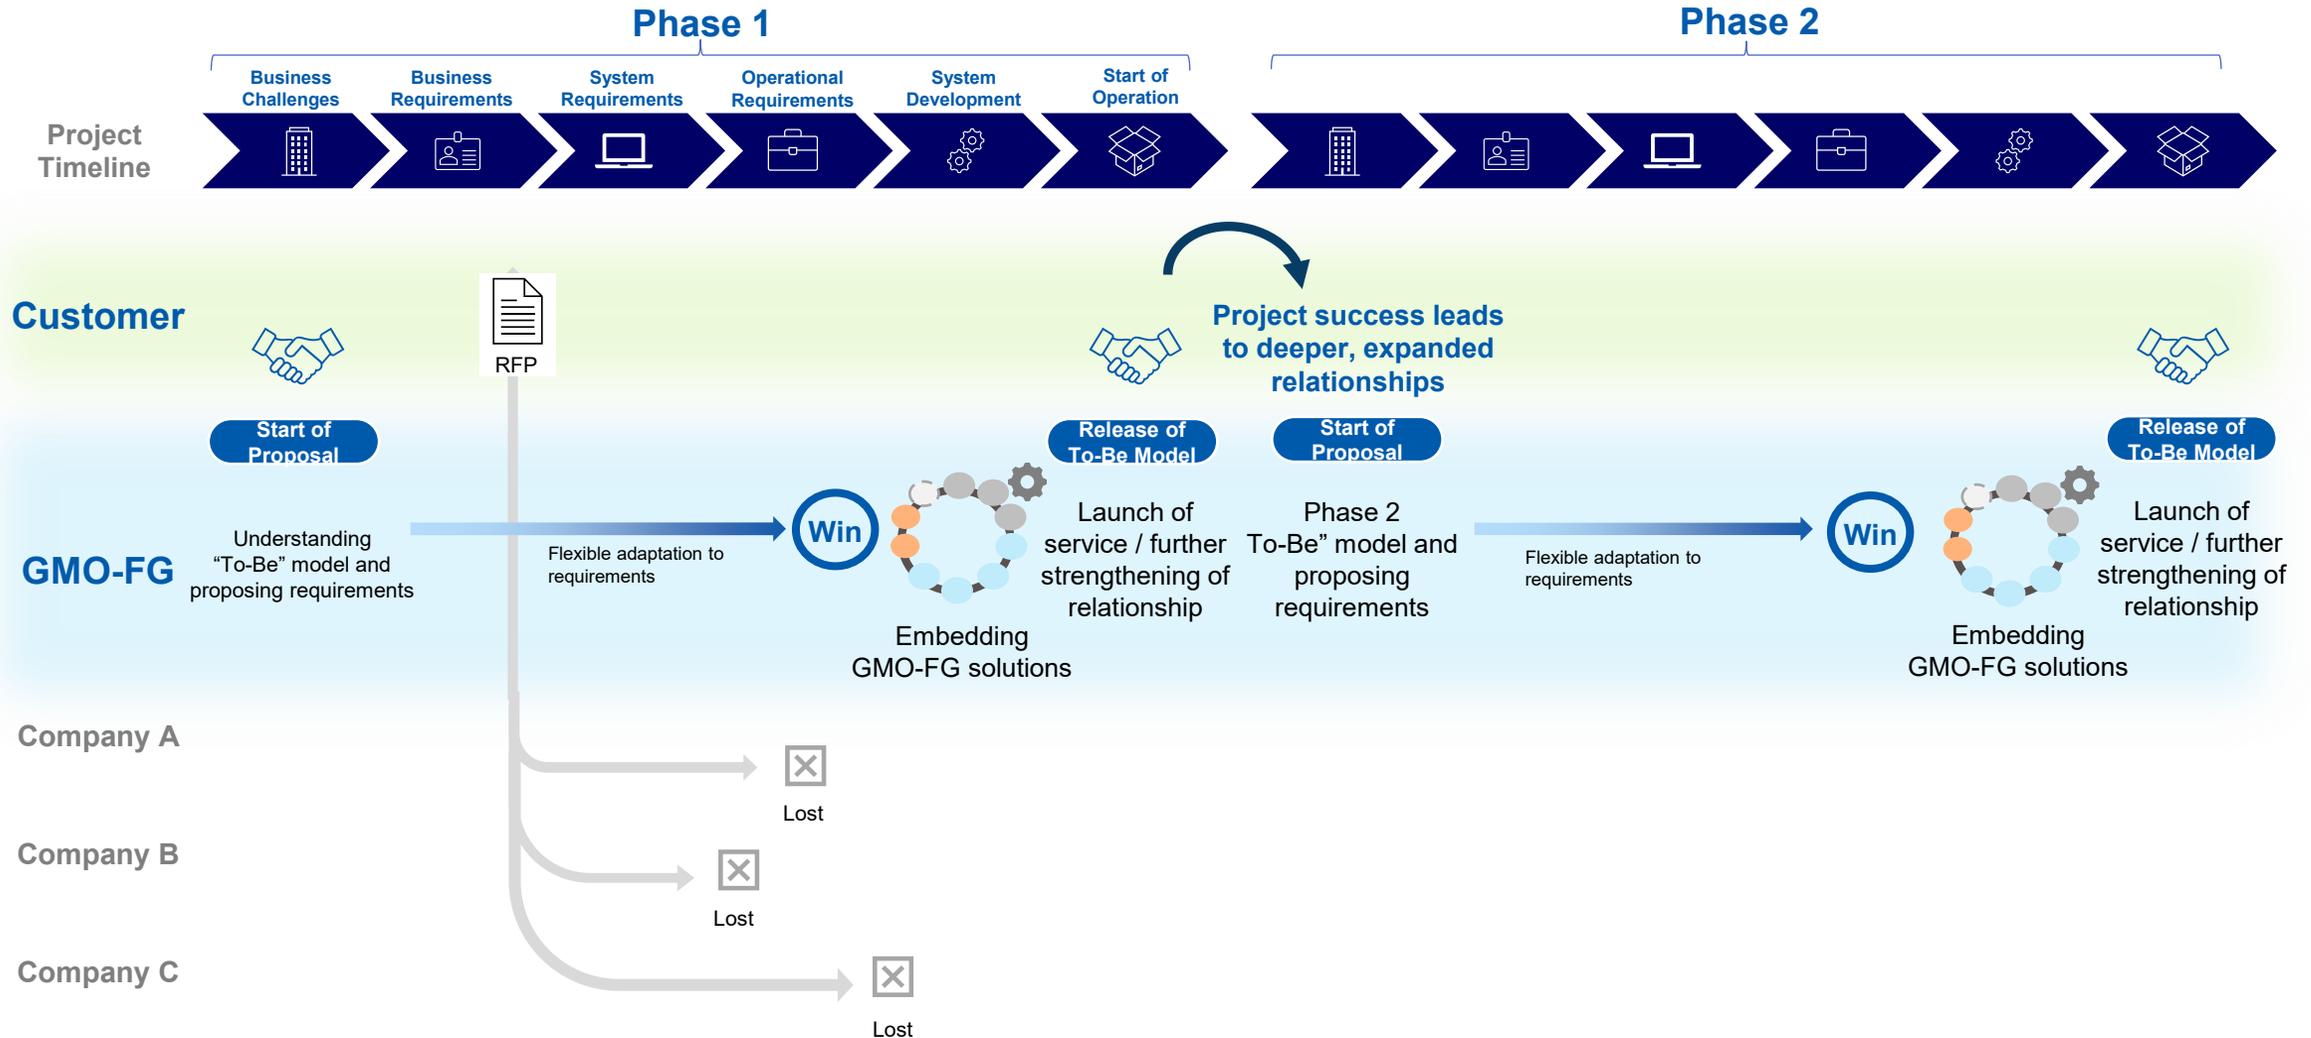

**SME**

**Maintain ARPU** Recurring ARPU: Approx. **10-15K JPY**

- Expand subscription model based packaged product offering
- Target small to medium-sized merchants with highly active terminals

## Addressing business challenges through a Cashless Platform and IT Talent

Achieve high conversion rate

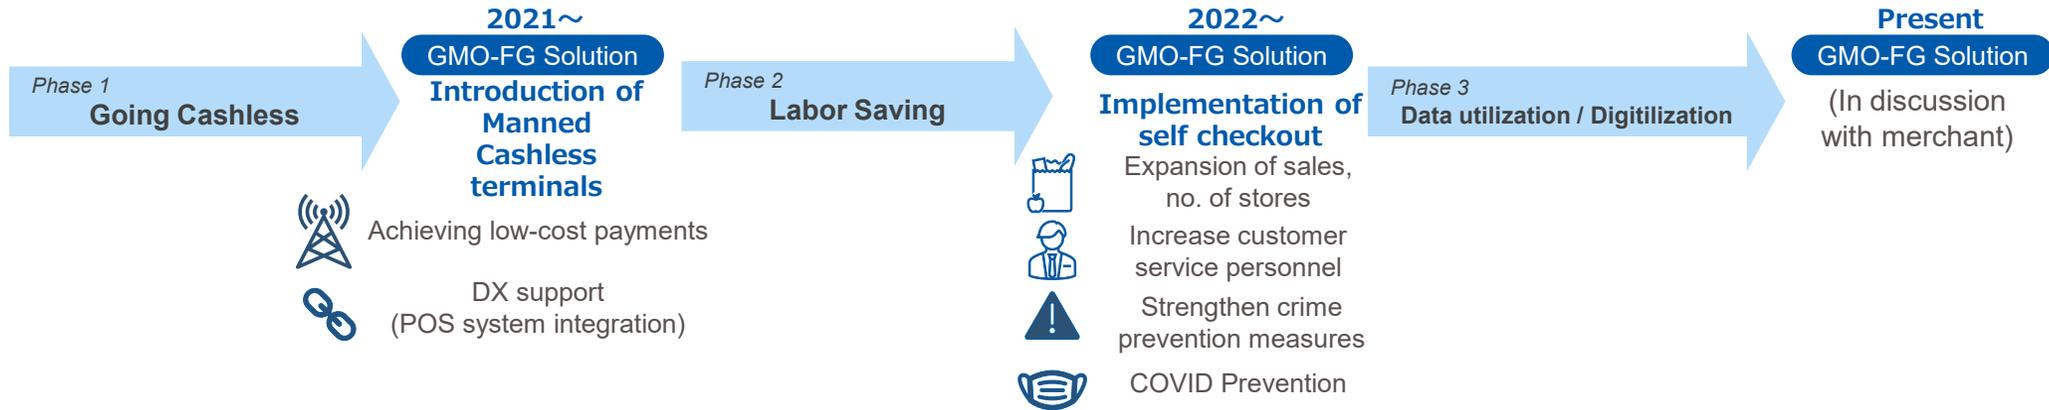

# Value Proposition No.2 : Win-Win Ecosystem

Providing solution assets to solve merchant business issues

Forming a win-win ecosystem where merchant sales and our ARPU grow together

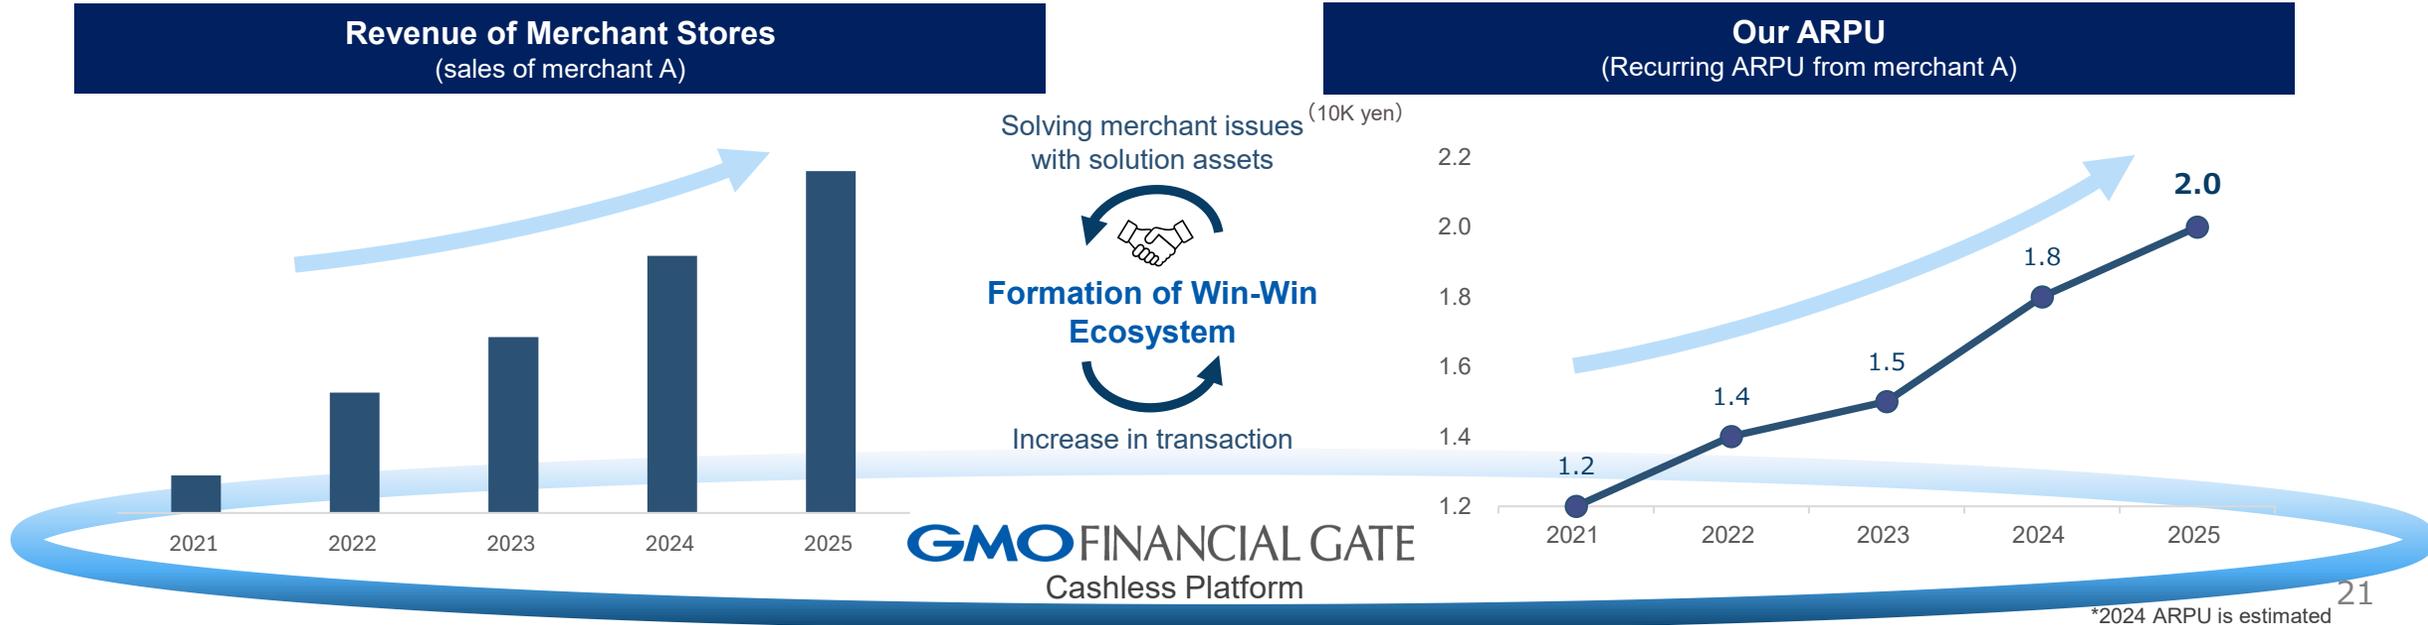

Solving Merchant Issues

Merchant: Improve sales and profit through labor saving and higher efficiency

Increase ARPU by increasing active IDs

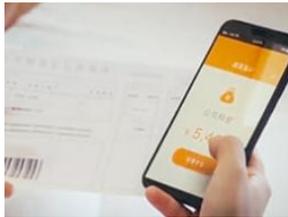

Formation of Win-Win Ecosystem

# Expanding use of Contactless NFC Payment

The percentage of credit touch payments at our processing center has exceeded 60%. Growing awareness of the convenience of NFC is driving the future spread of credit touch in the mobility field

## Credit and debit payments at our processing centers / Proportion of payment methods

# Revenue Details (1)

Initial	Content	Revenue Model
<b>Payment terminal sales</b>	Revenue from Payment terminals purchased from terminal manufacturers, and then confirm certain measures of payment methods that each merchant needs to accept.	<ul style="list-style-type: none"> <li>• <b>Terminal Selling Price × Units Sold</b> <ul style="list-style-type: none"> <li>✓ More than 10 types of terminals</li> <li>✓ Price range is from about ¥30K up to ¥100K</li> </ul> </li> </ul>
<b>Software development</b>	Software development that meets customers needs such as widening acceptable payment measures and adding point-payment functionality	<ul style="list-style-type: none"> <li>• <b>Number of Deals × Ordered value</b> <ul style="list-style-type: none"> <li>✓ Since software development is tailor made type revenue, deal size and margin vary from time to time</li> </ul> </li> </ul>
Stock	Content	Revenue Model
<b>Transaction Inquiry Service</b>	It is a service that provides merchants with their daily sales data that go through our processing center. We charge it as monthly fixed fee	<ul style="list-style-type: none"> <li>• <b>Number of contracts × Service Price</b> <ul style="list-style-type: none"> <li>✓ Service price is around ¥500 to ¥1K per terminal per month</li> </ul> </li> </ul>
<b>Points &amp; QR</b>	It is a service to add point/QR payment app to the terminals merchants have. We charge it as monthly fixed fee	
<b>Rental (Mobile terminal)</b>	It is a service to rent mobile type terminals that enable merchants to use them in wireless setting. We charge it as monthly fixed fee	
<b>Mobile SIM</b>	It is a SIM card fee to use mobile type terminals. We charge it as monthly fixed fee	
<b>Digitalization Assistance</b>	Revenue from settlement data transferred to merchants, registration changes, assistance which leads to back office support for clients	
<b>Processing (Monthly fixed fee model)</b>	It is a processing fee based on monthly fixed rate <small>*Basically, it is defined as "Fee" revenue when it comes to the case we charge as Pay As You Go billing, not fixed rate</small>	<ul style="list-style-type: none"> <li>• <b>Number of contracts × Monthly Fixed Fee</b> <ul style="list-style-type: none"> <li>✓ Monthly fixed fee will vary depending on the size of contract etc..</li> </ul> </li> </ul>

Generally, the economics of services above vary depend on merchants. And there are services that some merchants do not apply

## Revenue Details (2)

Fee	Content	Revenue Model
<b>Processing</b>	It is a fee we charge toward monthly transaction volume based on the rate per transaction	<ul style="list-style-type: none"> <li>• <b>TRX Volume × Processing Fee</b></li> <li>✓ Processing fee is about ¥3 per transaction</li> </ul>
<b>Roll paper</b>	This is a sales of roll paper that is used with payment terminals at stores	<ul style="list-style-type: none"> <li>• <b>Number of Order × Price of Roll Paper</b></li> <li>✓ The price range of roll paper is about ¥130 to ¥200.</li> </ul>
<b>Electronic receipt storage</b>	Optional service to store vouchers electronically, sales to be billed based on the number of payment transactions subject to the contract	<ul style="list-style-type: none"> <li>• <b>Number of settlement processes subject to contract x unit processing fee</b></li> <li>✓ Unit processing fee is about ¥1 per transaction</li> </ul>

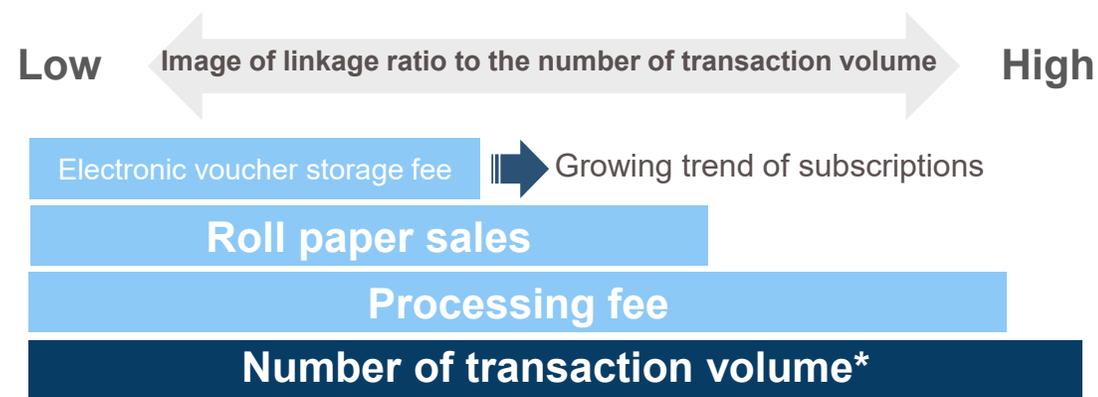

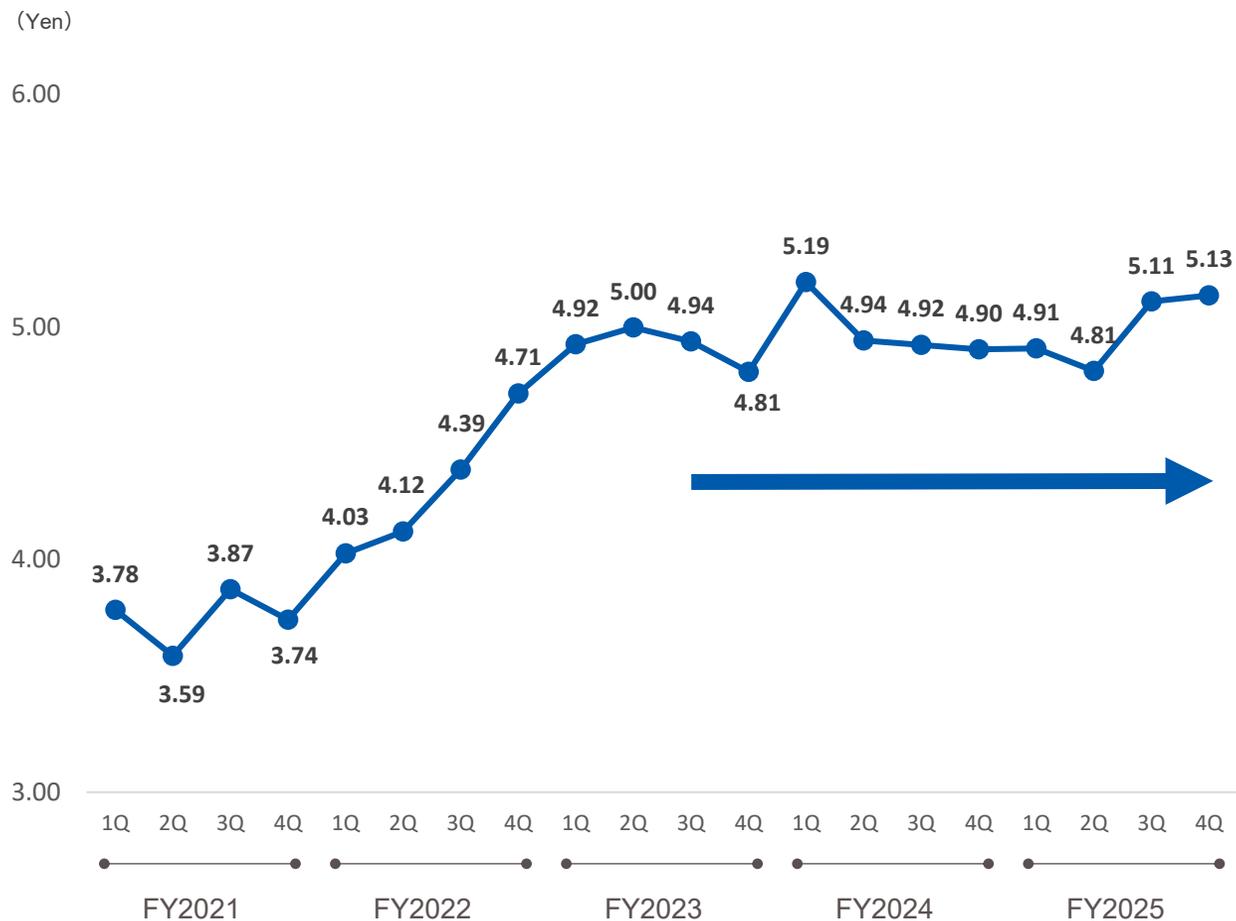

Spread	content	Revenue Model
<b>Acquiring (Settlement agent)</b>	<p>We charge spread fee (<math>\alpha</math>) towards clearing amount to merchants</p> <p>We received indicator rate (N) from acquirers, then we acquire merchants instead of acquirers with the new rate (<math>N + \alpha =</math> merchant fee)</p>	<p><b>GMV of Agent Contract</b></p> <p>×</p> <p><b>Spread fee we charge (about 0.3~0.4%)</b></p>

# Fee ARPU (Fee Revenue Divided by Transaction Volume)

The current fee unit price remains just under 5 yen, with roll paper sales contributing to fluctuations in the fee unit price.

■ Fee ARPU (Fee revenue divided by Transaction volume)

■ Composition of Fee ARPU

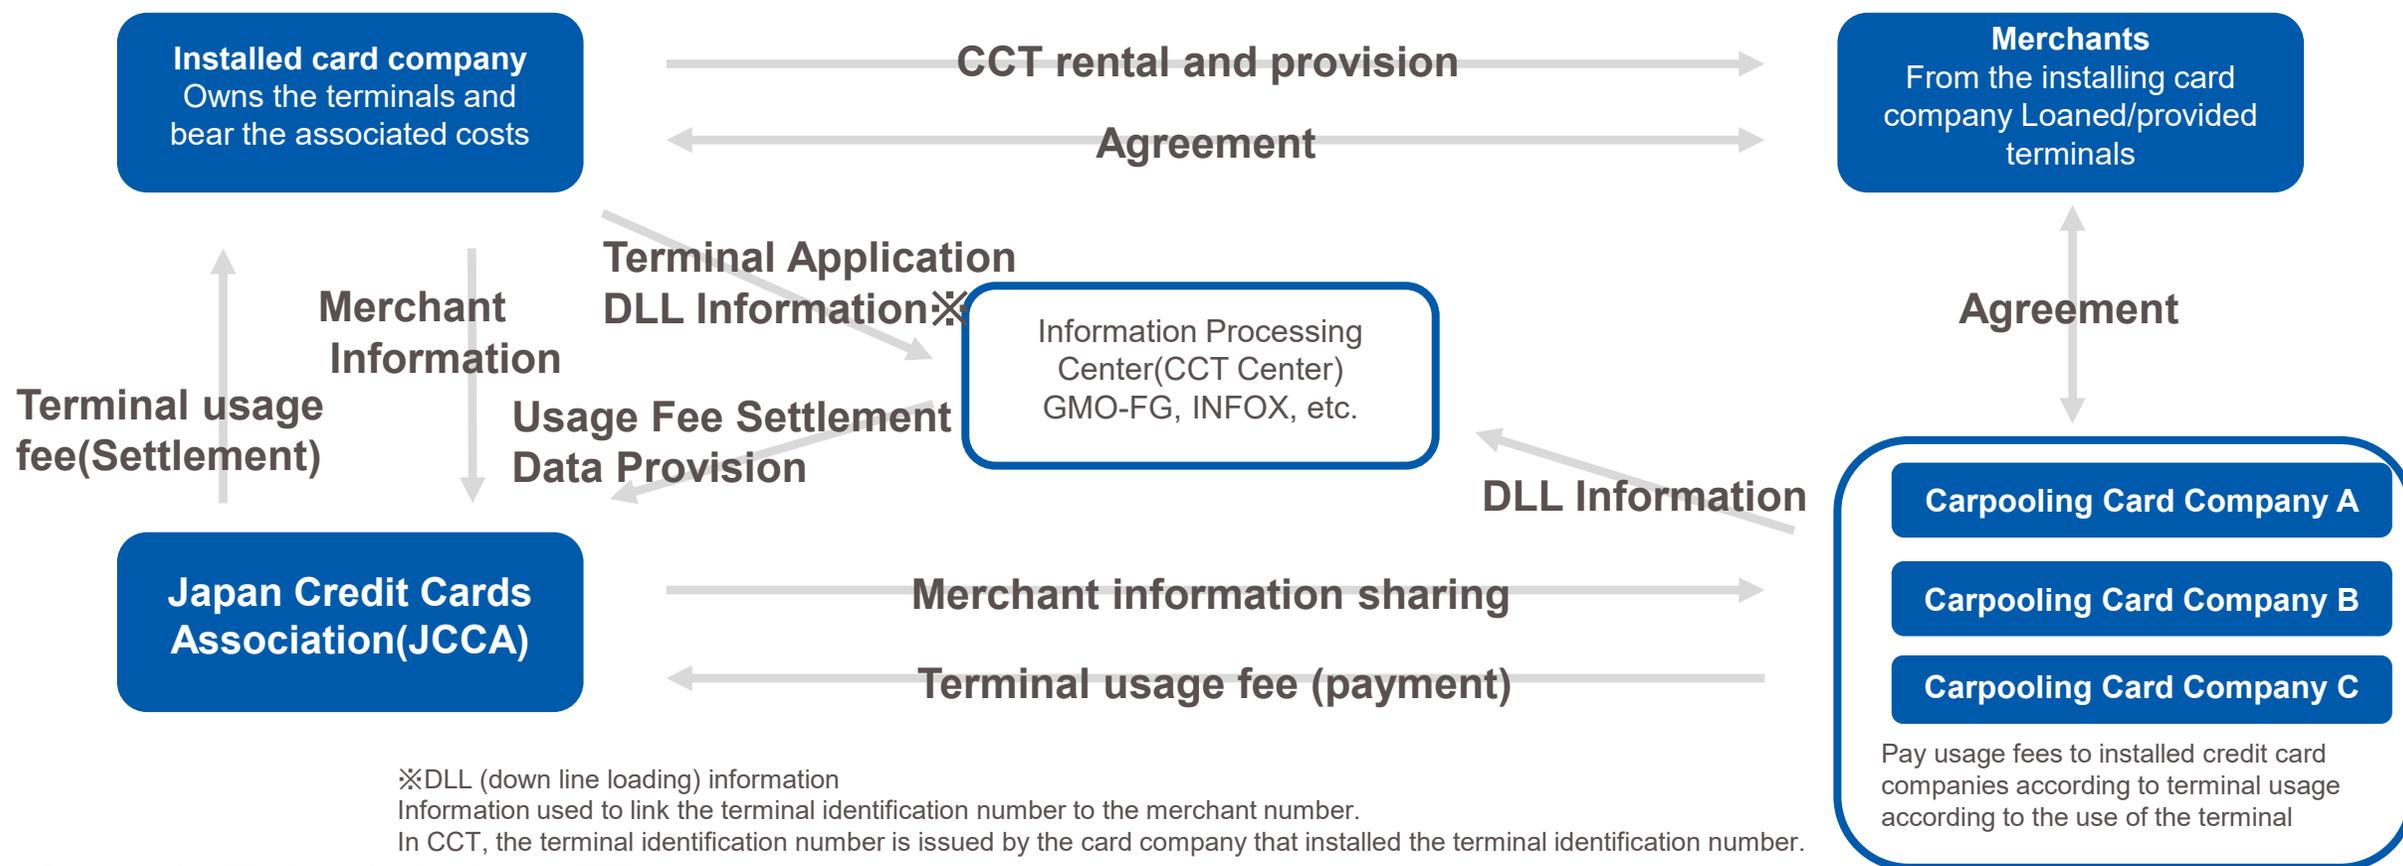

\*Length is an image and does not reflect actual numbers or scale

# CCT (Credit Center Terminal, Card company-owned terminal)

## CCT(Credit Center Terminal)

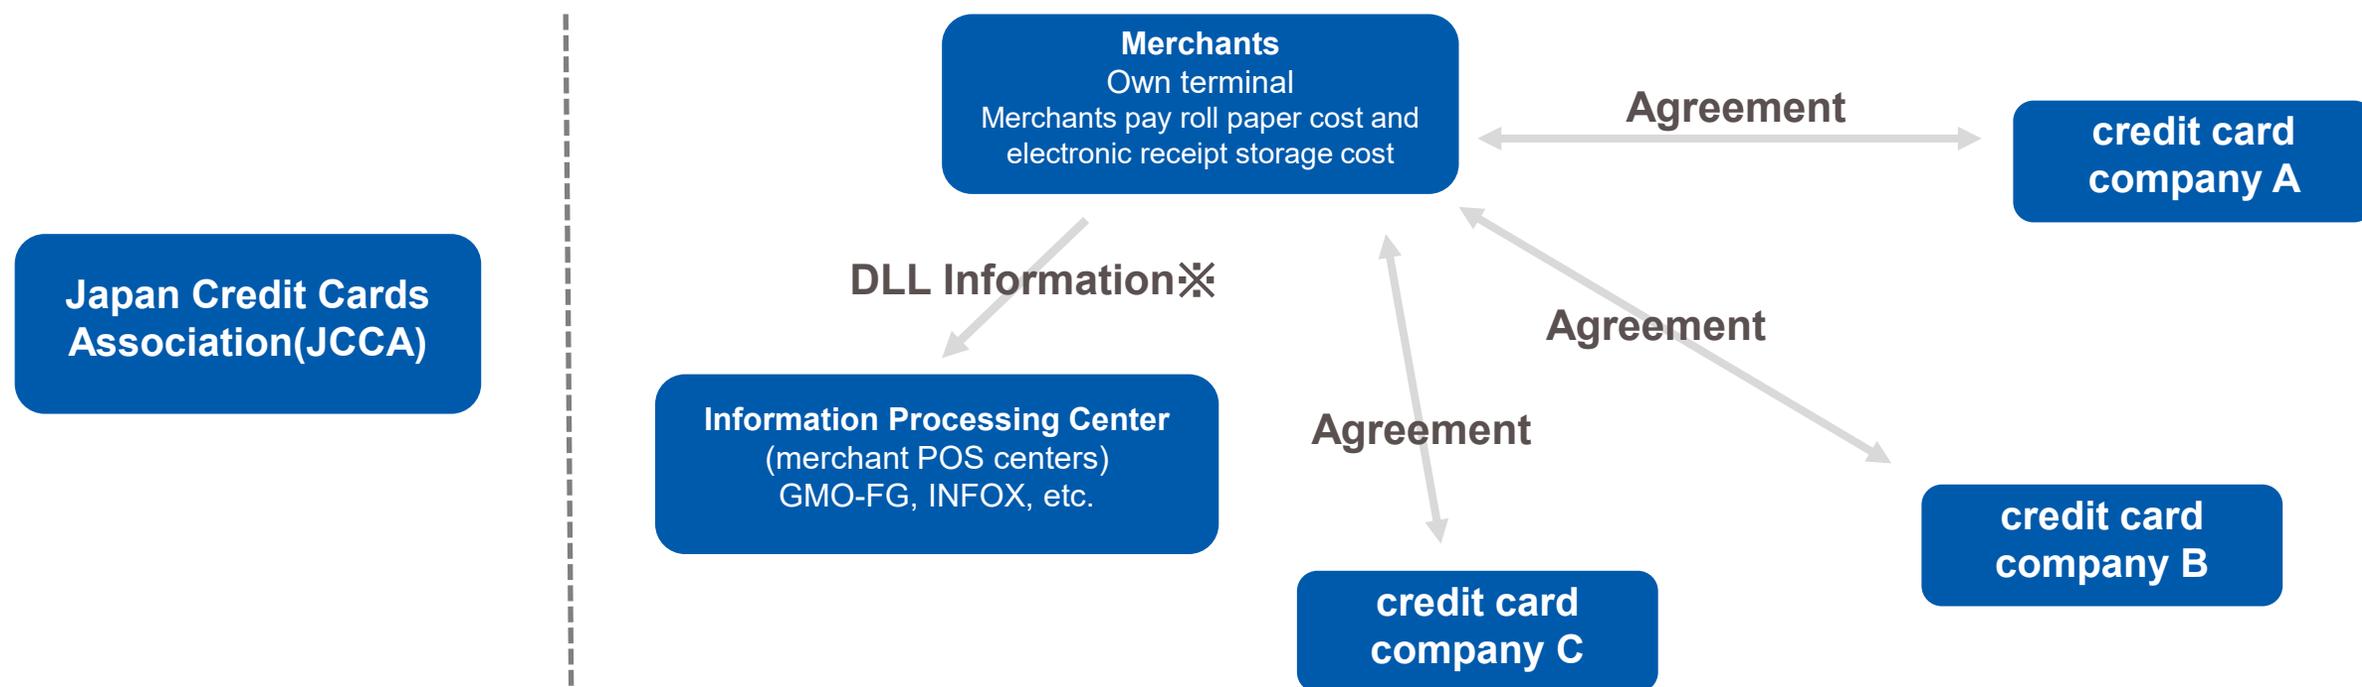

It is a terminal name authorized by the information processing center (CCT Center) designated by the Japan Credit Card Association (JCCA) and operated in accordance with the guidelines, etc., established by the JCCA. A single card company owns the terminal on behalf of another card company and lends it to a merchant for installation. Multiple card companies jointly use the terminals and pay usage fees to the card companies that installed them

# Merchant POS (Merchant-owned terminals)

## Merchant POS

In general, POS (Point of Sales) is a generic term for a service that provides information on sales performance trends such as the date, time, quantity, and price of products sold, but in the credit industry, the term merchant POS is customarily used to refer to all terminals capable of processing credit card transactions that are not CCT terminals. In a merchant POS, the merchant itself owns the terminal, prepares the card payment environment, and makes a separate contract with the credit card company. While this requires more time and effort on the part of the merchant, it also allows for a more flexible design that is not bound by the JCCA (Japan Credit Card Association) guidelines

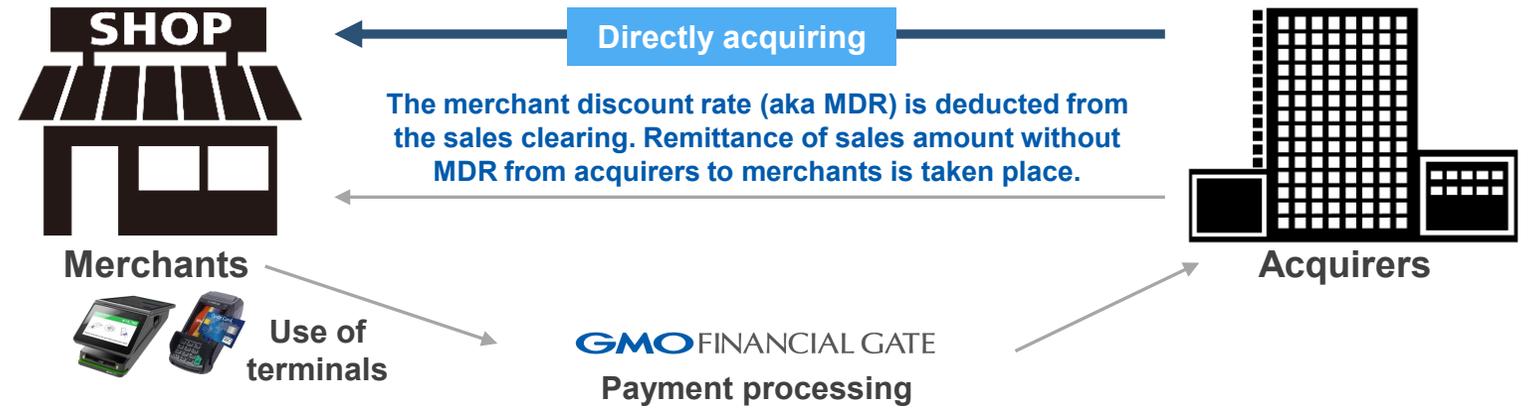

※ DLL (down line loading) information  
Information used to link the terminal identification number to the merchant number.  
In merchant POS, the terminal identification number is issued by the merchant.

# Concept of Spread revenue ratio to GMV

Our total GMV is the sum of ① and ② below. Spread revenue is generated only in the case of ② Agent contract. Since ① also contributes significantly to GMV, the linkage between total GMV and Spread revenue tends to decline

## 1 Direct contract

Mainly large merchants

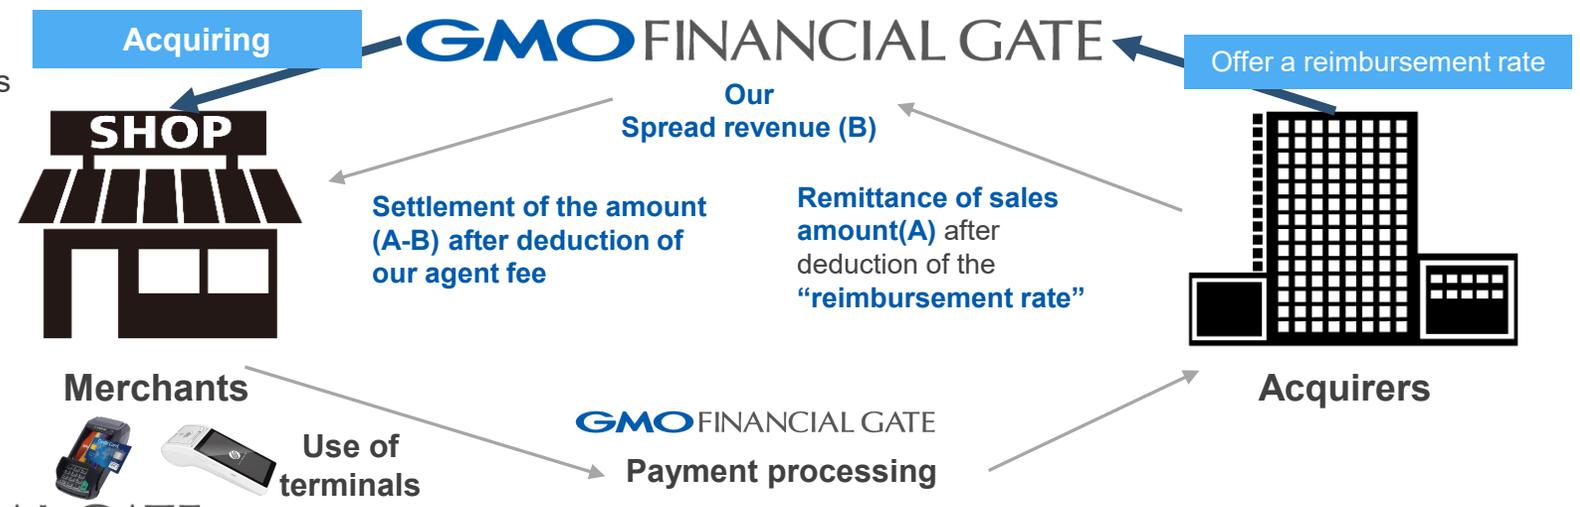

Enjoyable revenue

- Initial
- Stock
- Fee

## 2 Agent contract

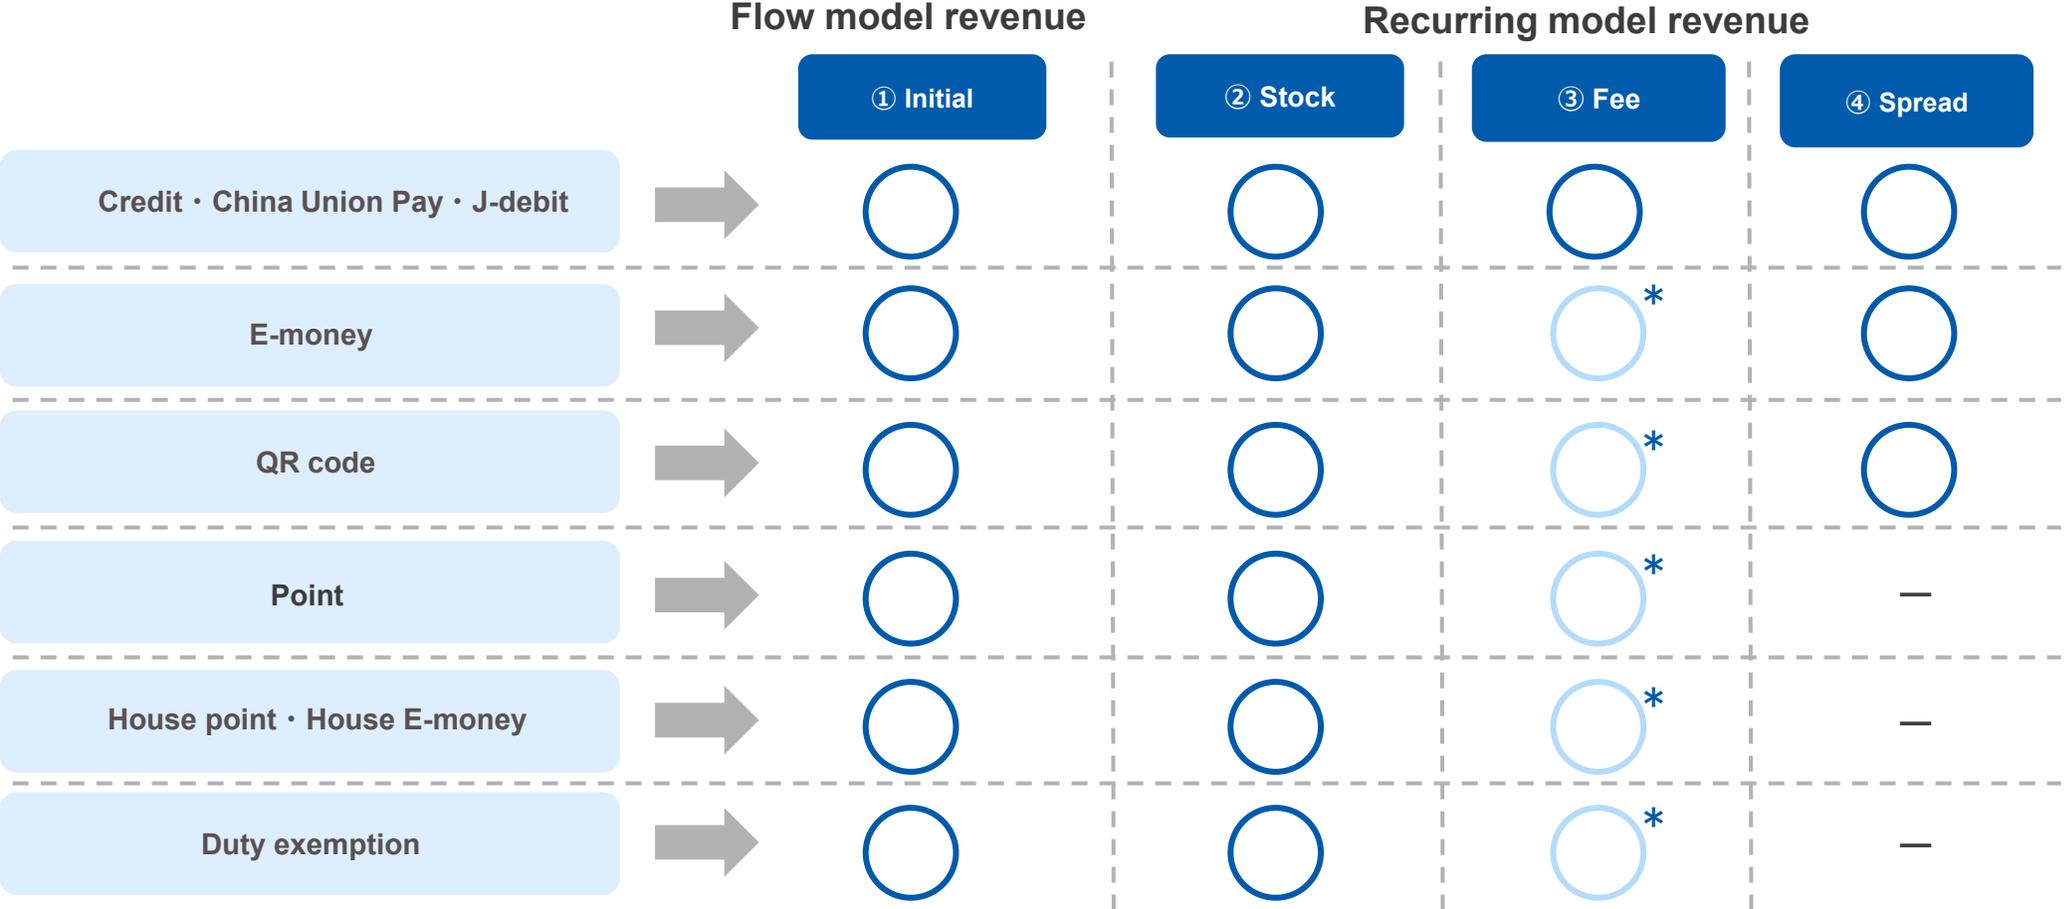

Mainly small medium merchants

- Initial
- Stock
- Fee
- Spread**

# Monetization by Payment Method

We operate different business models according to payment method as a cashless platformer. Growth in each payment method contributes to our growth as well

\*There is no "processing fee" that constitutes Fee revenue because the transaction is not processed at our processing center, but the paper rolls consumed in conjunction with the transaction contribute to the increase of Fee revenue.

# Medium-Term Strategy Acquiring major merchants by focusing on alliances

Meeting customer needs through enhanced credit payment functions and alliances with QR / points vendors

Terminals we offer

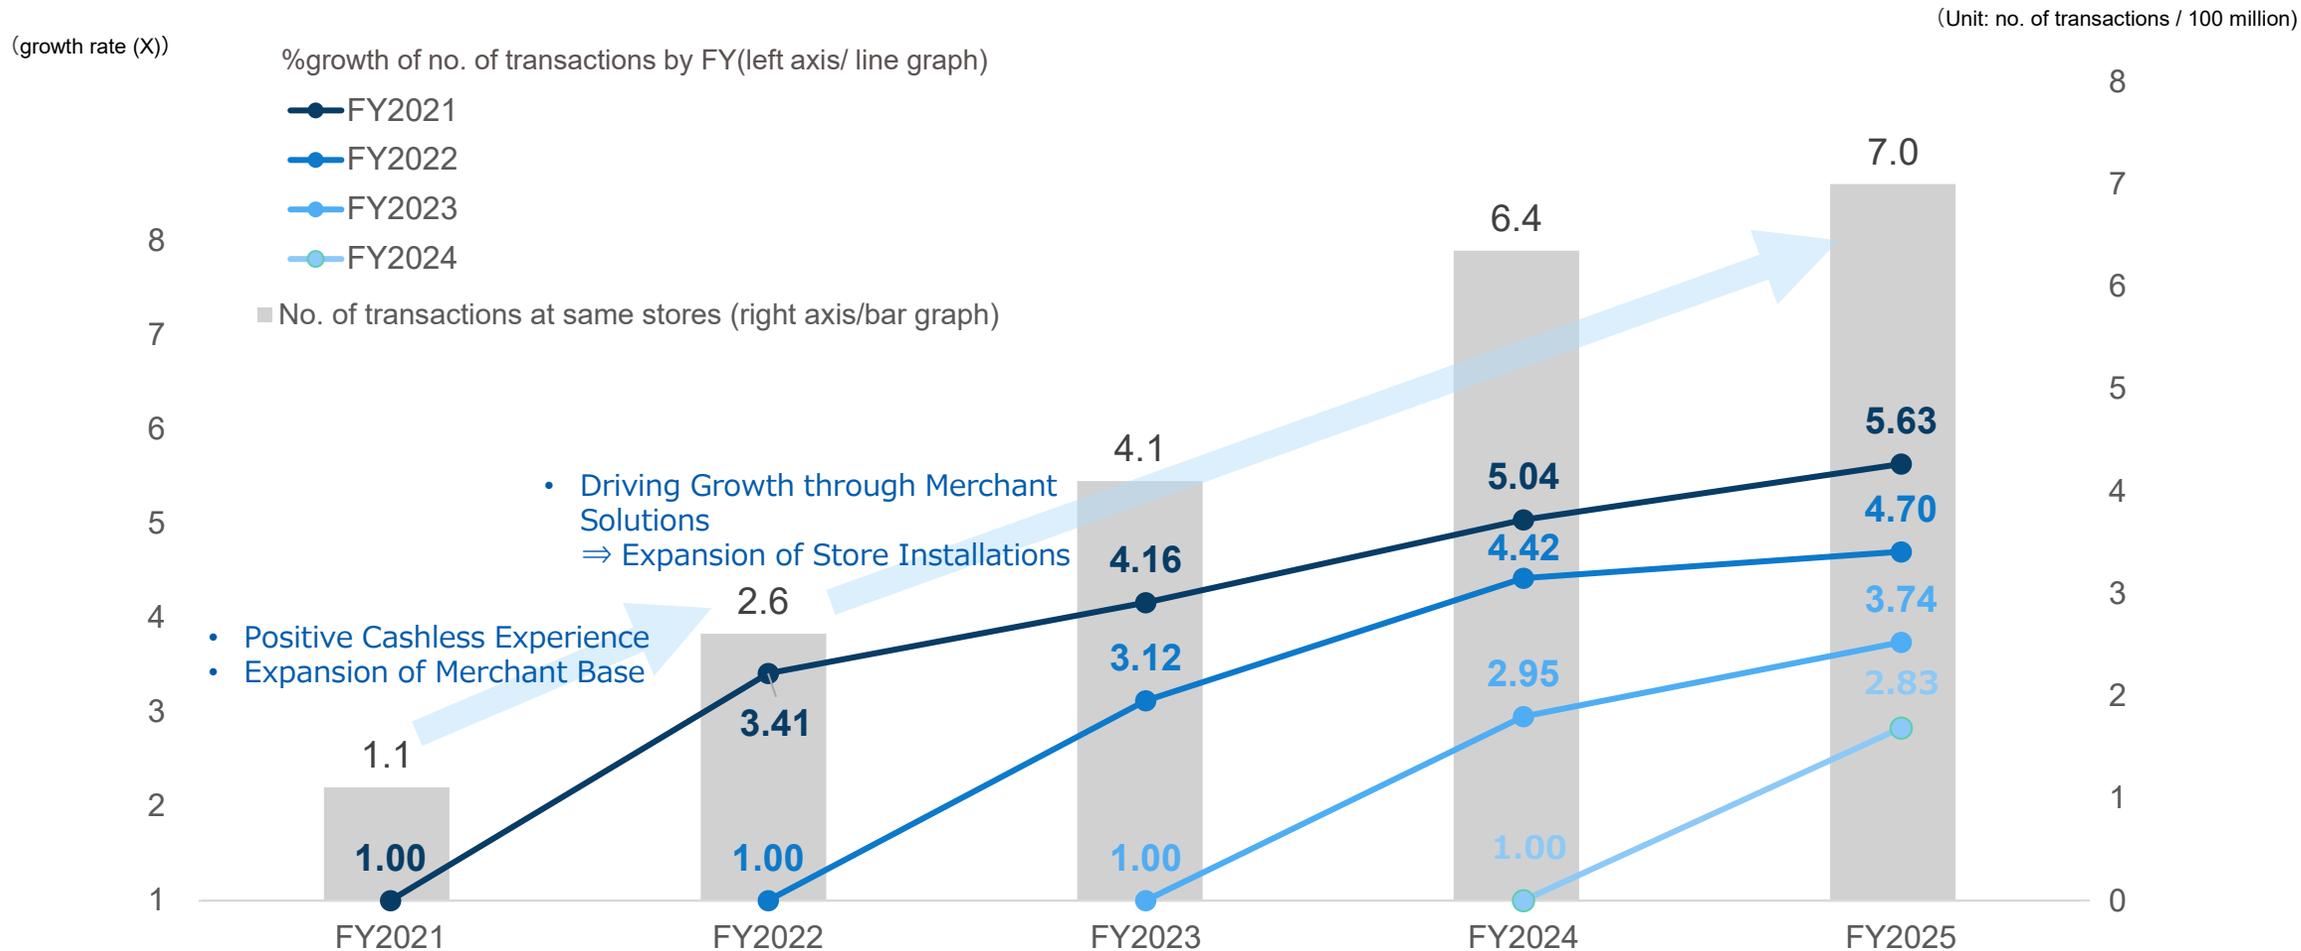

**Cashless Platform**

# Same-store (Merchant) Growth (Number of Transactions)

Payment activity at merchant merchants increases YoY

Accurately captured merchants needs which keeps merchants onto our payment platform

## Same-store (Merchant) Growth (Number of Transactions)

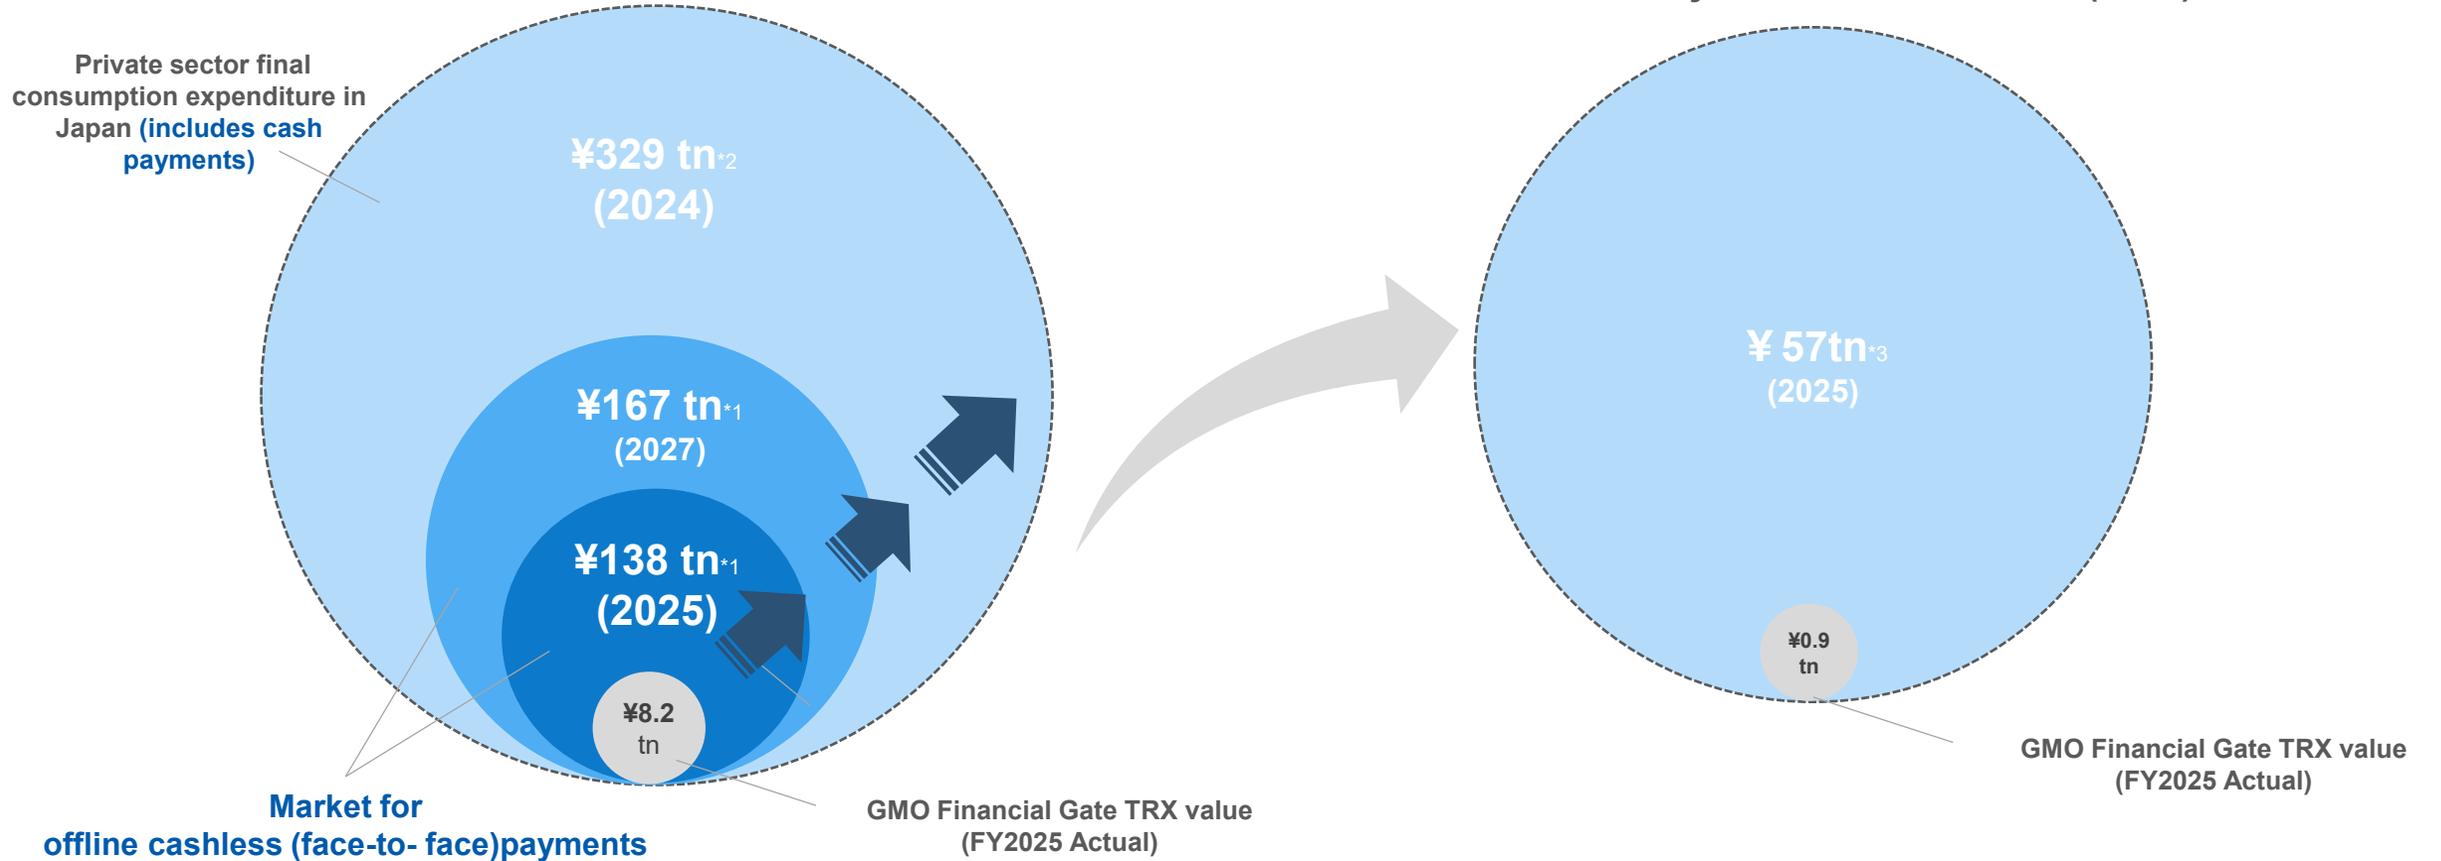

# TAM (Total Addressable Market)

Transaction Value of cashless (face-to-face) payment is expanding rapidly, as daily-life-related markets is expanding.

## Offline Transaction value in Japan

## TAM for daily-life-related markets \*(2025)

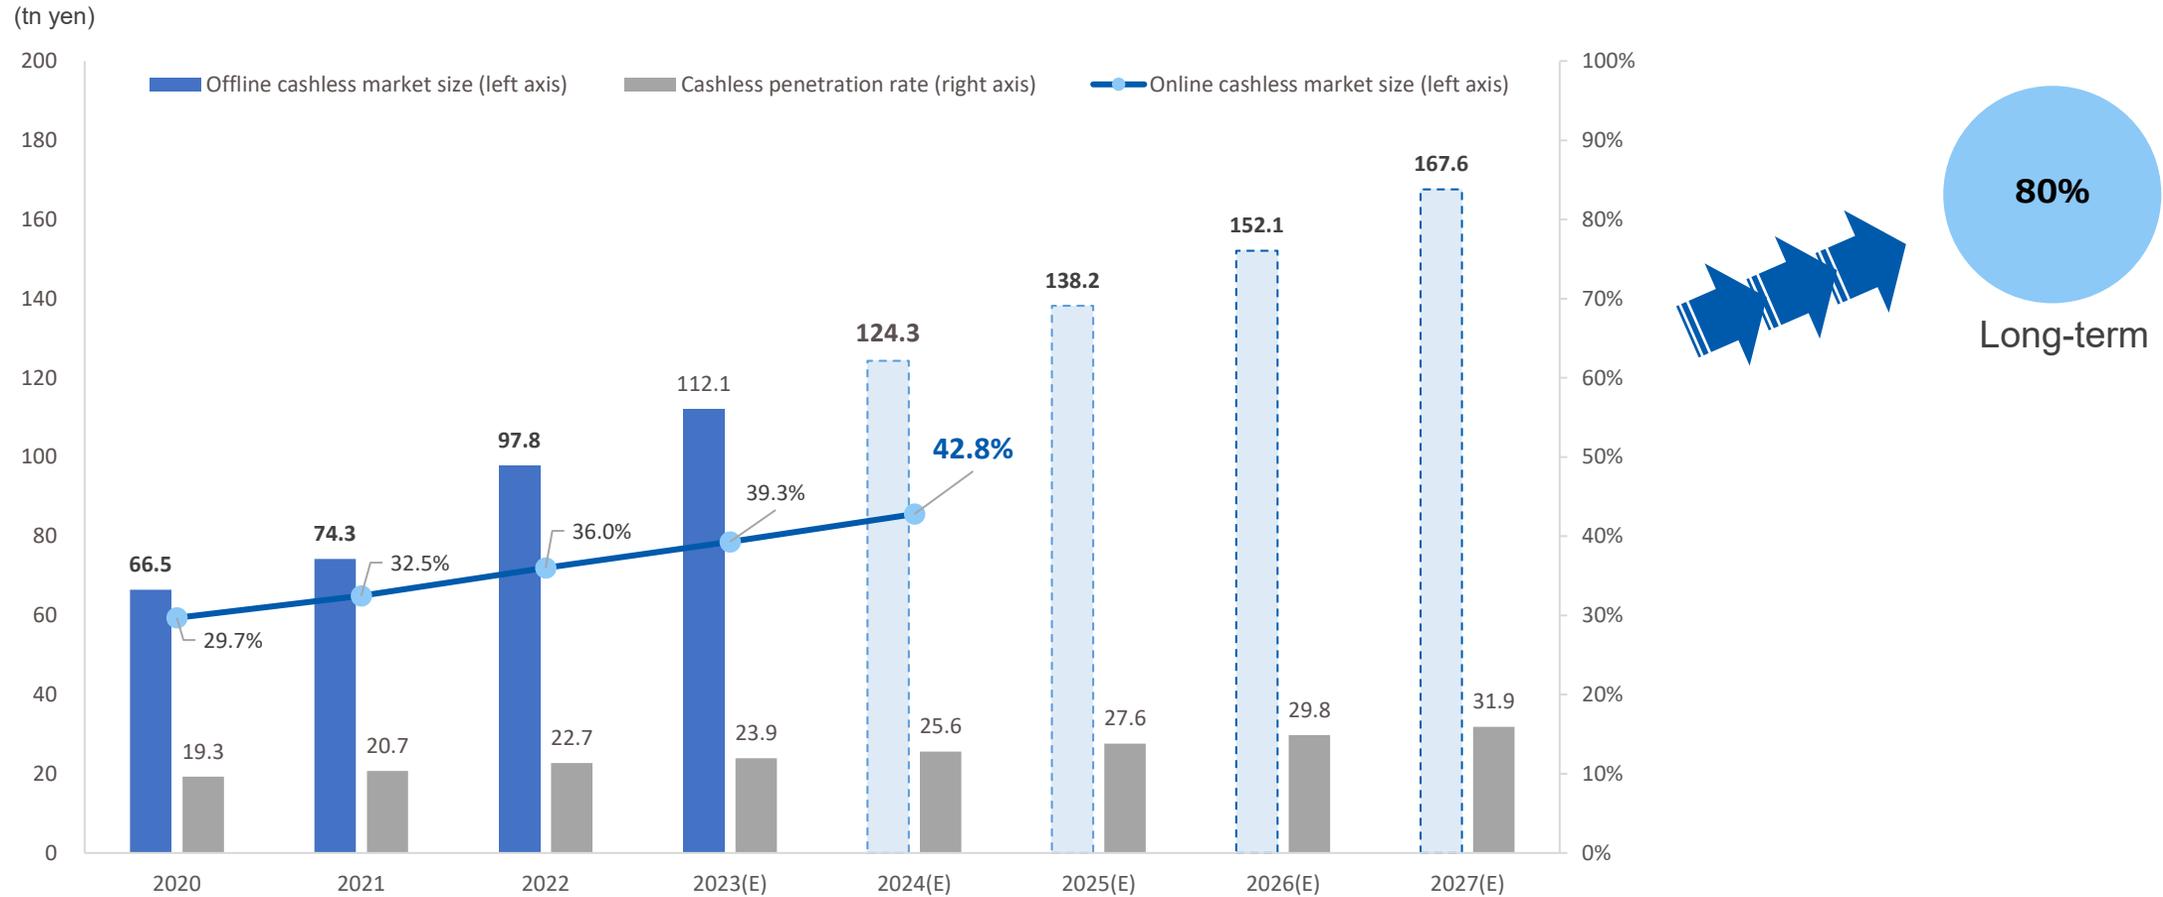

(\*1) "2024 Edition: Actual Status and Future Forecast of the Cashless Payment Market in Japan" and "2024 Edition: Current Status and Future Forecast of Online Payment Service Providers" Yano Research Institute Ltd.

(\*2) "Composition of Final Consumption Expenditures by Household Type" the Cabinet Office.

(\*3) "Our estimate based on the Ministry of Economy, Trade and Industry (METI)'s "Market Survey on Electronic Commerce."

# Growth Trend of Domestic Offline Cashless Market

The market for offline cashless payments is currently ¥112tn, five times larger than the online market. The cashless payment ratio has reached the government's target of 40%. We will continue to improve the environment to reach the long-term target of 80%.

# Unique Positioning

End-to-end solutions via one-stop platform allows us to create alliances with many players in the market

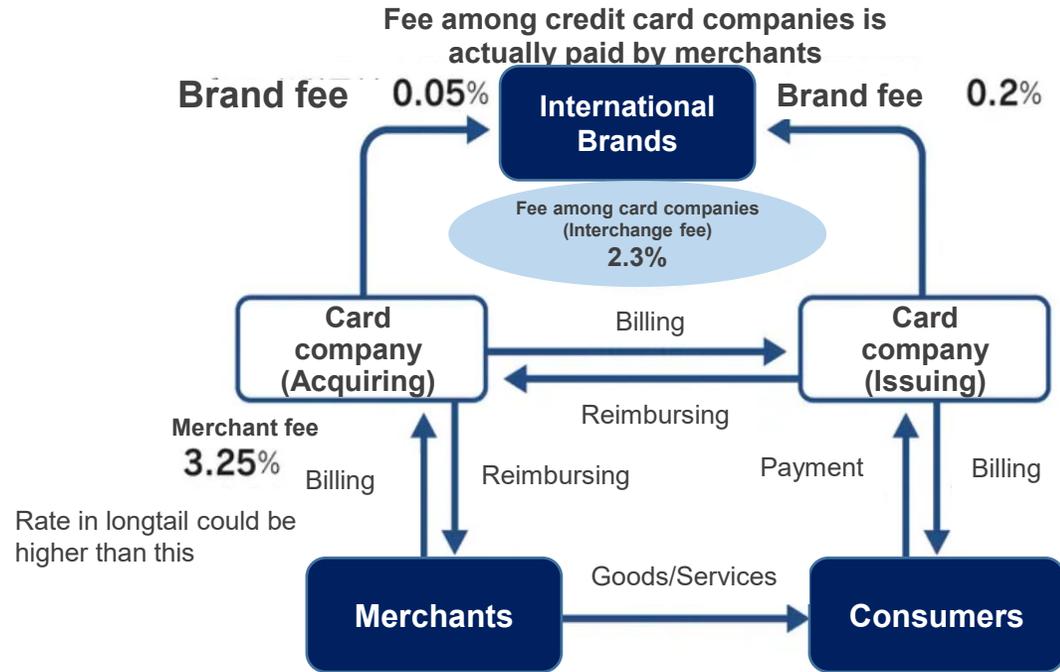

## ■ Solutions in Offline Payment Market

# Breakdown of MDR

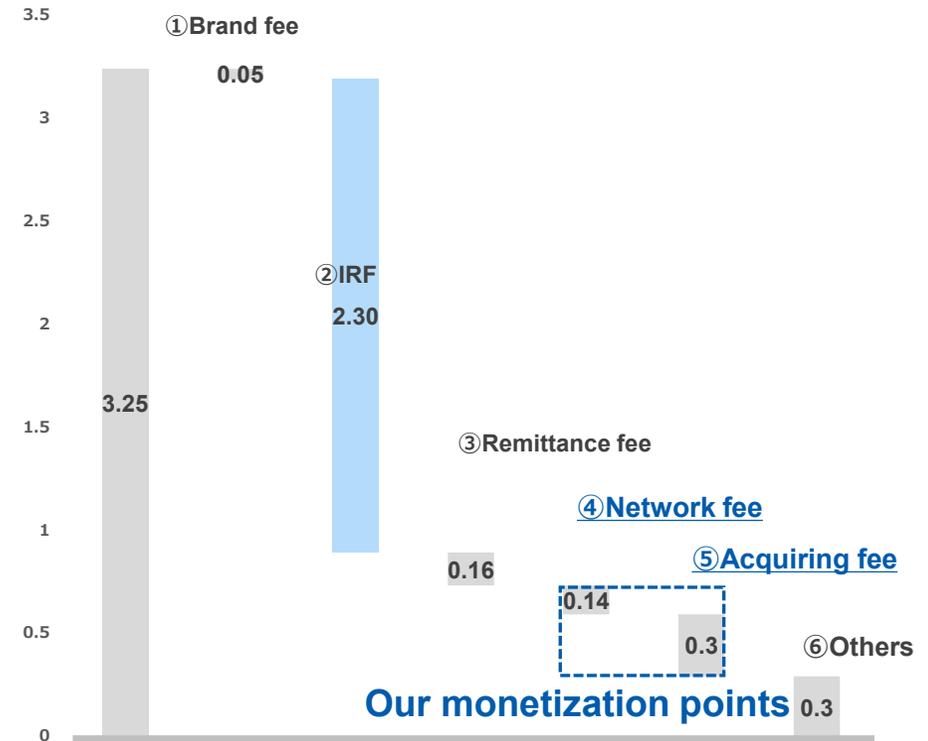

In response to a request from the Japan Fair Trade Commission, Visa, Mastercard, and UnionPay announced their intention to disclose their interchange fee rates by the end of November

METI requires fee among credit card companies

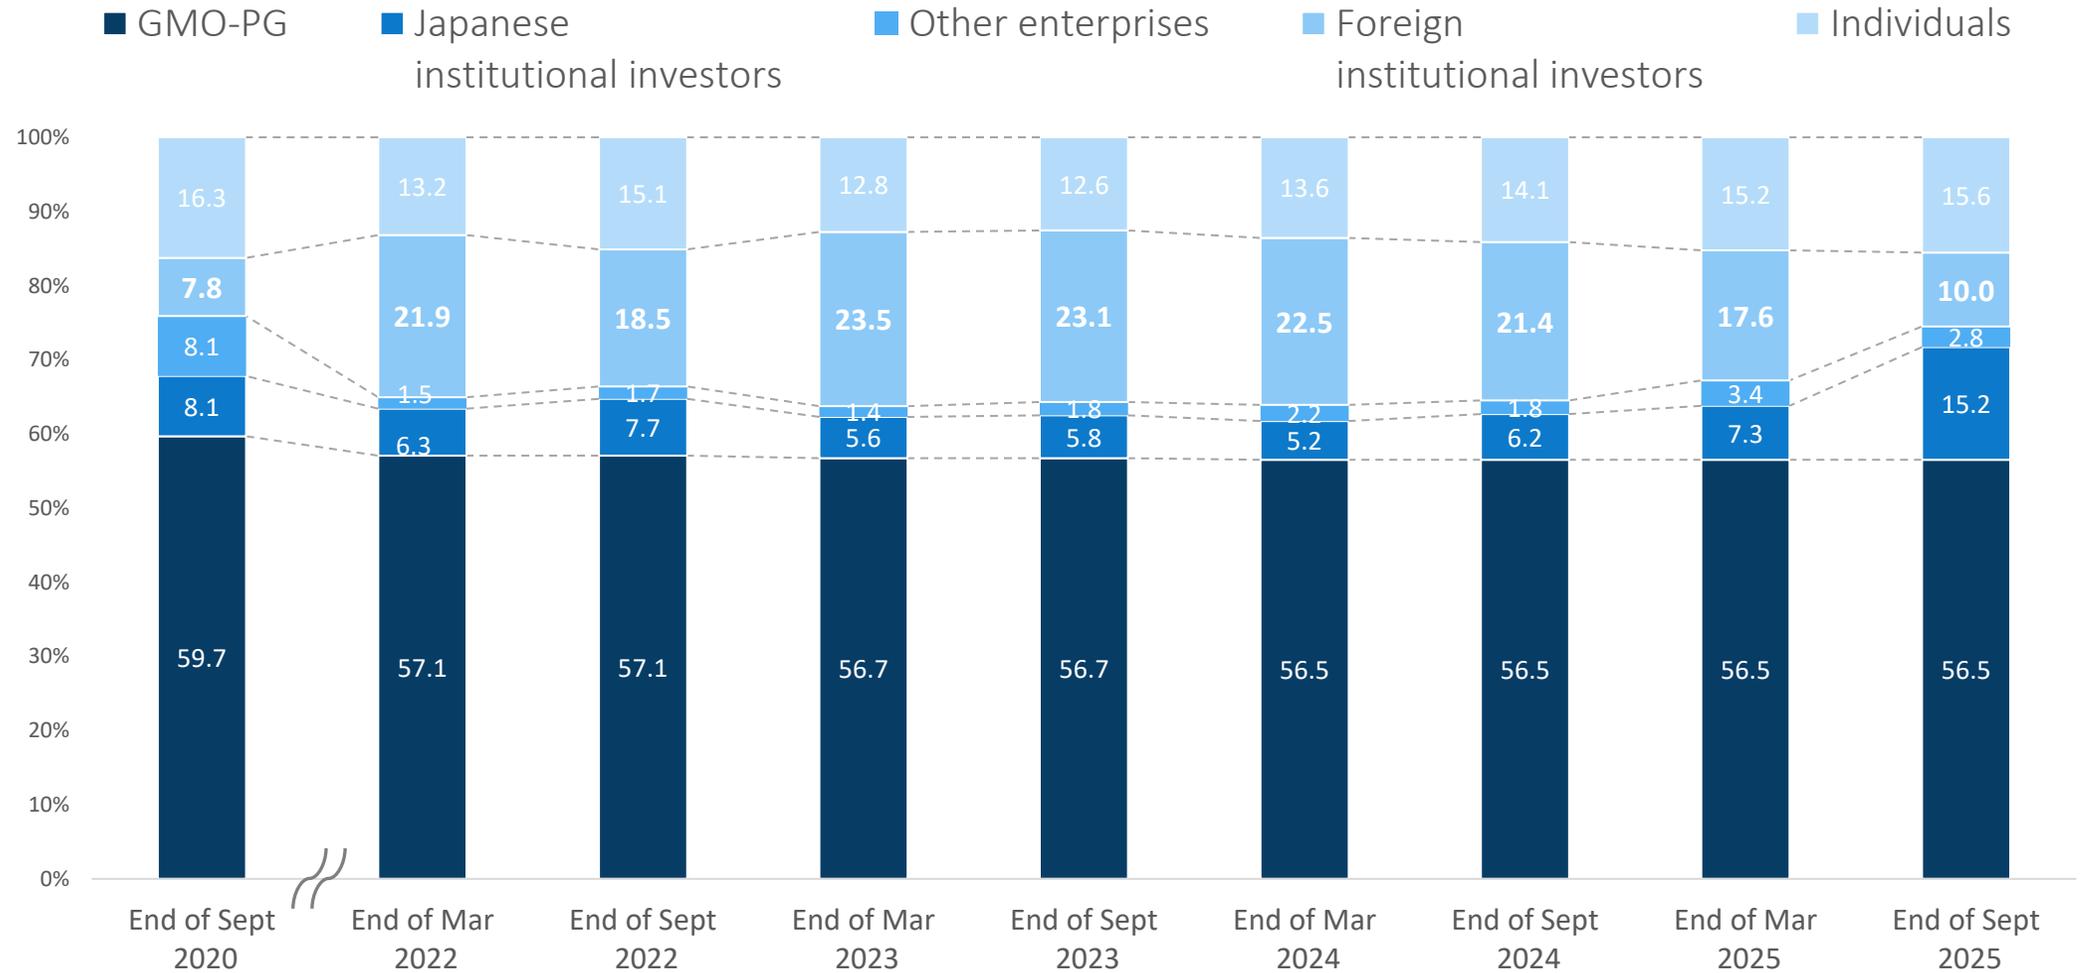

## Breakdown of MDR

(model case : AOV ¥5K SME merchant)

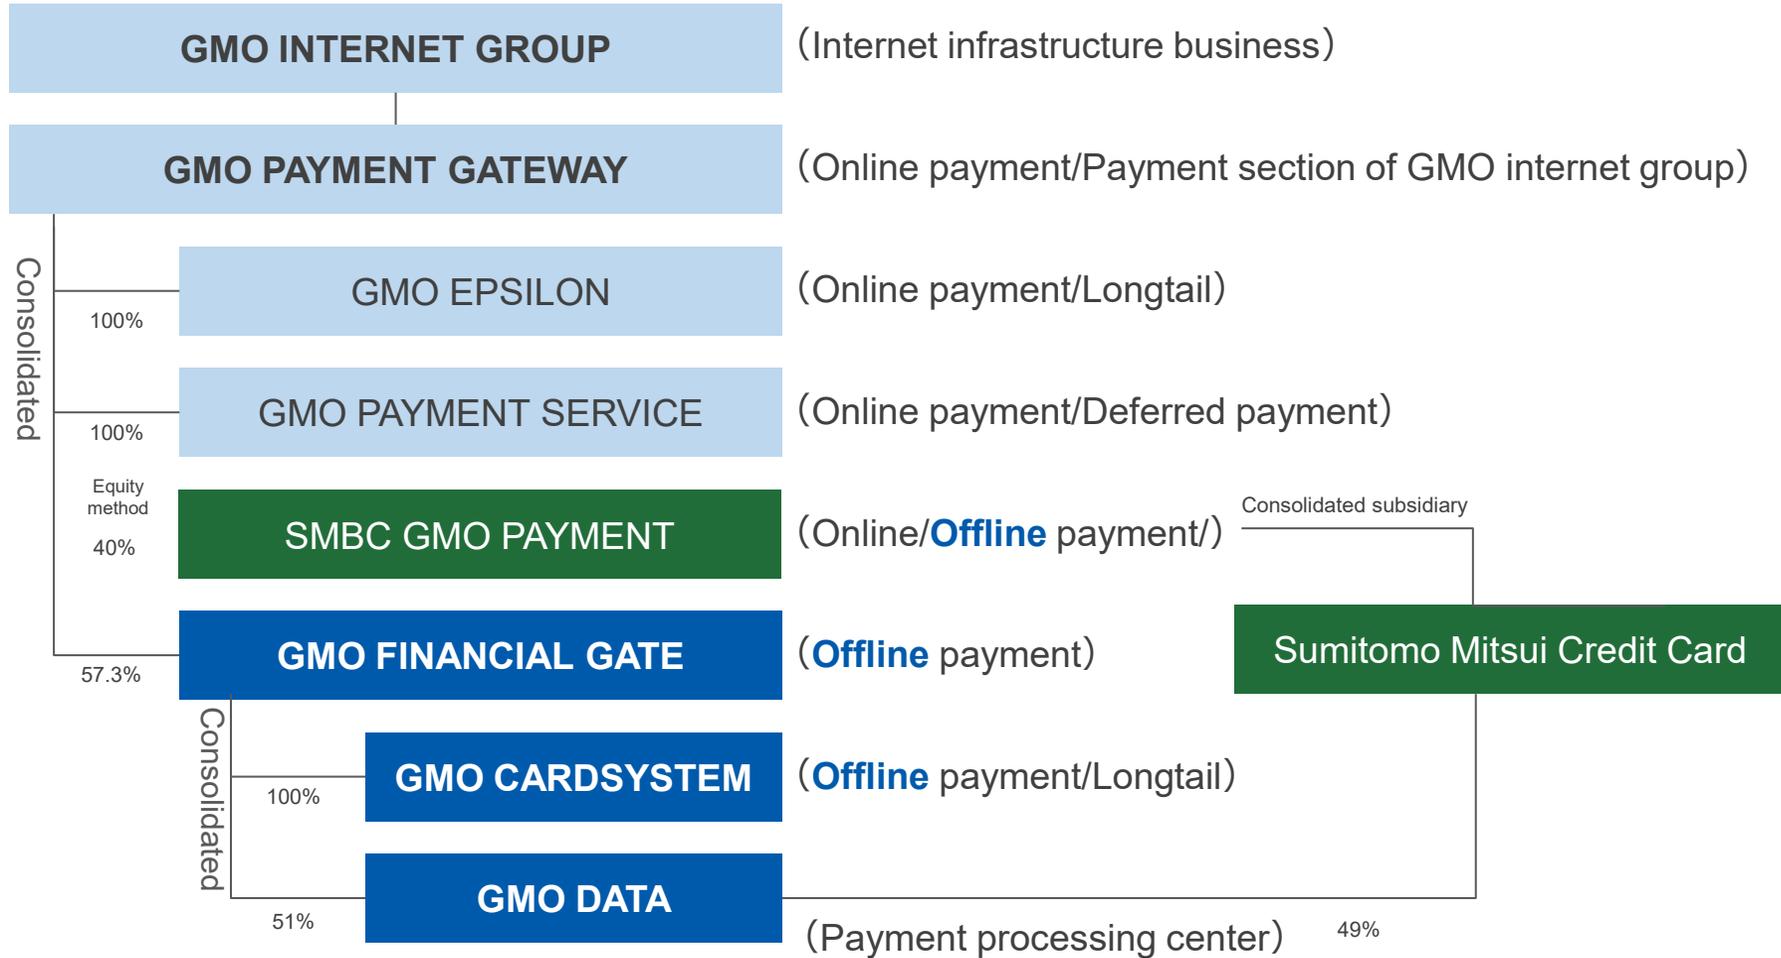

# Shareholder Structure

Actively engaged in IR activities, including one-on-one meetings and participation in conferences hosted by securities companies.

# Affiliated Companies

GMO-FG serves in offline face to face payment market as a consolidated subsidiary of GMO-PG

# ESG Initiatives

# ESG-related topics (Materiality Identification/CDP Score B earned)

(1) Identify materiality. (2) Received a B score for two consecutive years, the only one in the growth market, from CDP, which is centered on prime companies. Aim to improve scores in low-rated items and obtain an A.

ESG Materiality		
	Materiality	Contribution to SDGs
Social Responsibility	1 Infrastructure & Security Provide safe and secure face-to-face cashless payment infrastructure	11 住み続けられるまちづくりを
	2 Decarbonization & Environment Provide environmentally friendly payment terminals	7 エネルギーをみんなにそしてクリーンに 12 つくる責任 つかう責任 13 気候変動に具体的な対策を 17 パートナリシップで目標を達成しよう
	3 Business Innovation Incorporate technological advancements	8 働きがいも経済成長も 9 産業と技術革新の基盤をつくろう
Senior Management	4 Human Resources Human Rights Secure highly specialized human resources and strengthen investment in their training	3 すべての人に健康と福祉を 5 ジェンダー平等を實現しよう
	5 Governance Establish a fair and equitable governance structure	16 平和と公正をすべての人に

## CDP Score: B earned

### What is CDP

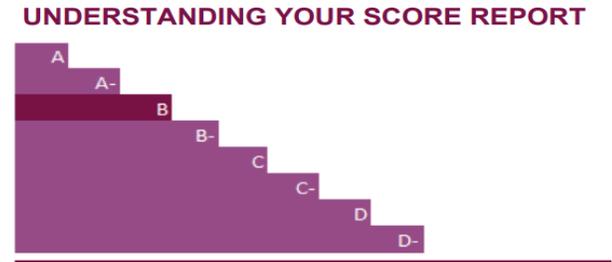

Non-government organization for global warming countermeasures. Sends out a questionnaire to leading companies around the world on topics such as greenhouse gas emissions, business risks and opportunities due to climate change, and evaluates companies' responses to climate change issues based on their responses. Ratings are given in 8 stages: A, A-, B, B-, C, C-, D, D- (B rating is third from the top)

### B Score

A score of "B" is considered to be at the management level, and indicates that the company has been evaluated as "taking coordinated action on climate issues"

- While the average for our industry, the Asian region, and the world as a whole is a "C," we are the only company listed on a growth market to receive a "B" score for two consecutive years.

- We will continue to strive to enhance disclosed information and aim to obtain an A score

# Sustainability / Topics

Obtained SBTi validation for a 55% reduction in CO<sub>2</sub> emissions by 2030 compared with 2021, as well as for a 2050 net-zero target.

## What is SBTi?

**SBTi (Science Based Targets initiative):** An international organization that promotes the establishment of science-based targets for climate action.

Only 90 companies\* in Japan have received SBTi validation for their 2050 net-zero targets.

\*As of August 2025, based on our analysis.

## Approved Targets

		Short-term Target (FY2030 Target)	Long-term Target (FY2050 Target)
Scope1 Scope2	Achieve and continuously maintain net-zero GHG emissions through FY2030.	Achieve net-zero GHG emissions by FY2050.	
	Reduce GHG emissions per newly activated payment terminal by 55% by FY2030, compared with FY2021 levels.		
Scope1 Scope2	Achieve and continuously maintain net-zero GHG emissions through FY2030.	Achieve net-zero GHG emissions by FY2050.	
	Reduce GHG emissions per newly activated payment terminal by 55% by FY2030, compared with FY2021 levels.		

The certification scope covers the entire GMO-PG and GMO-FG Groups.

- Scope 1: Direct GHG emissions from our operations.
- Scope 2: Indirect emissions from purchased electricity and heat.
- Scope 3: Other indirect emissions across the supply chain. At this stage, Scope 3 mainly includes Category 1 (Purchased Goods and Services) and Category 11 (Use of Sold Products), excluding waste and fuel use.
- Operational Net Zero: Scope 1 and 2 emissions are reduced to near zero through measures such as renewable energy certificates.
- Net Zero: Total Scope 1, 2, and 3 emissions are reduced by over 90%, with remaining emissions neutralized.

# ESG Initiatives / Environment

In the provision of our payment platform, we promote business operations that consider environmental impact. Working to reduce CO<sub>2</sub> emissions related to our business

### Specific Efforts

- **Recycled paper is used for receipts (paper rolls)** used at each payment terminal.
- **Provide electronic storage services** for sales slips to reduce the number of receipts (paper rolls)
- **Use of environmentally friendly materials** for payment terminal components
- **Reuse of payment terminals returned by merchants** as replacement terminals (refurbished terminals) in the event of malfunctions, etc.
- **Established Supply Chain Promotion Department to strengthen supply chain management** of payment terminals, paper rolls, etc.

# ESG Initiatives / Social

Aiming for sustainable growth by hiring excellent human resources and enhancing various systems that contribute to improving the capabilities of all partners\* in order to create corporate value and solve social issues

\*Employees are referred to as partners

## Initiatives

- **Human Resource Development and Welfare System**
  - **Career design system** : System to provide advice and support on career development
  - **360-degree multidimensional evaluation system** : A system that allows partners to evaluate their supervisors without a name.
  - **Countermeasures to the falling birthrate** : Financial benefits and special exceptions for work at various stages of marriage, childcare, etc.
- **Work-style reform**
  - Promote a telework work system that takes into consideration the safety of executives and employees
  - Promotion of maternity and paternity leave
  - Encouraging shorter working hours for childcare
  - Providing post-retirement reemployment opportunities
  - Providing an hourly annual leave system, etc.
- **Employment of the Disabled**
  - Inclusivity of diverse employees, creating a better workplace

\*Number of partners" covers the consolidated corporate group GMO Financial Gate, GMO Card Systems, and GMO Data.

\*Number of partners" is the total number of regular employees, rehired employees, contract employees, and seconded employees (excluding employees seconded from our group to outside the group, but including employees seconded from outside the group to our group) .

\*Number of temporary partners" is the average total number of part-timers and temporary employees during the past year.

\* Figures for "Ratio of women among employee partners" and "Ratio of women among management partners" are for "employee partners."

\* Average years of service, average age, and turnover rate are non-consolidated figures for GMO Financial Gate.

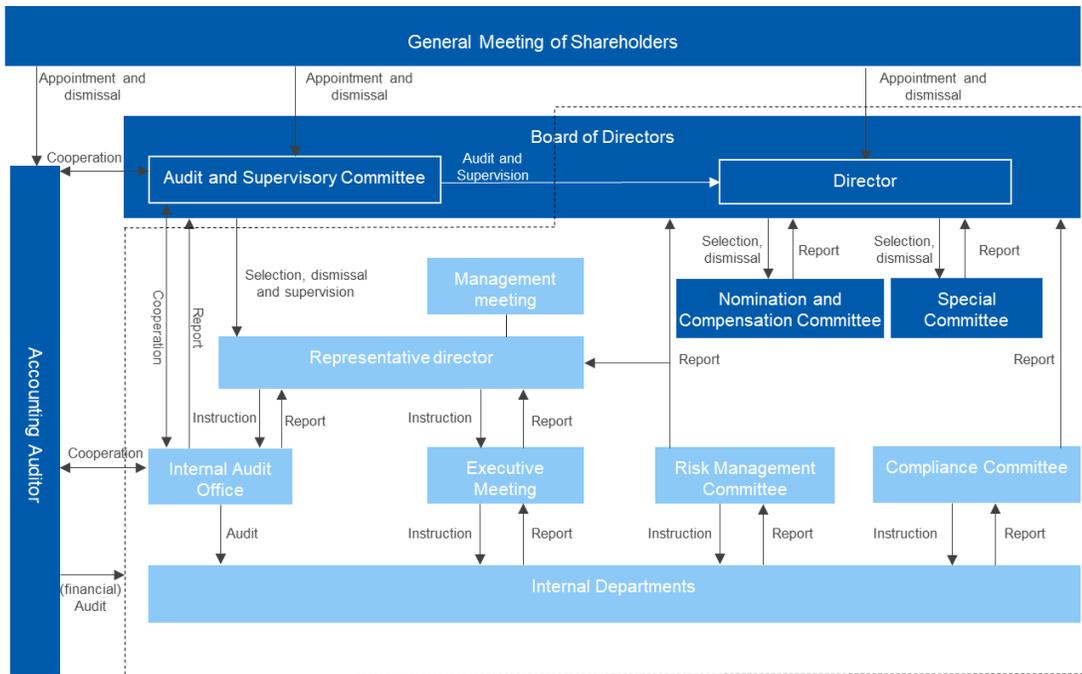

\* From the fiscal year ending September 2023, contracted and dispatched partners will be excluded from the calculation of the turnover rate.

# ESG Initiatives / Governance

Focus on enhancing corporate governance by establishing a decision-making structure that responds quickly and appropriately to changes in the business environment, a fair, transparent, and efficient business execution structure

## Specific Efforts

- **Transition to a company with an audit and supervisory committee** : External directors account for more than 1/3 of the Board of Directors, eliminating decision-making that would create a conflict of interest with shareholders.
- **Establishment of a special committee** : Strengthen the governance of the board of directors and protect the interests of minority shareholders

■ Organizations/conferences that include external parties  
 ■ Organizations/conferences composed of internal stakeholders
